

A Better Router Trammel

NOTE: SPACE MOUNTING RODS AND SIZE RUNNER/BLOCK TO FIT YOUR ROUTER.

A router along with a trammel jig is perfect for making arcs or circles. The one you see here works great and is easy to add and remove from the router. Rather than replacing the router base, it utilizes the holes that secure the adjustment rods on an edge guide. You can see how it goes together in the drawings. You may need to adjust the spacing of the rods to match your router.

Another feature I added is a pivot-point base that attaches to the workpiece with double-sided tape. This allows me to use the trammel without having to drill a hole in my workpiece.
