

EDUCOLOGY OF THE FREE

Elizabeth Steiner

EDUCOLOGY OF THE FREE is the publication of the O'Connor Lectures on Education presented at Colgate University during the spring of 1979. In these lectures, through social liberalism, the conception of liberal education evolves from the cultivation of the intellects of Free Men for their enjoyment and the cultivation of the words of Slaves for their transformation of the world through revolution to the cultivation of the social intelligence of human beings for their freedom. Thus, from the thesis, educology of the oppressor, and the antithesis, educology of the oppressed, emerges the synthesis, educology of the free. Since the synthesis which is freedom-for evolves from freedom-from through knowledge, knowledge is explicated, and so the logic for the discipline of educology emerges.

Tawfik, 2020-12-15 This volume is the result of the annual Summer research symposium sponsored by the Association for Educational Communications and Technology AECT The twenty two chapters in this volume seek to examine how learning and the design of instruction is interdisciplinary and connective in terms of research and practice The book is generally divided into three areas Theory Research and Application This framework shaped the authors interactions discussions and the informal context of the symposium Writings are included on multiple levels including research and practice on learning across disciplines including instructional design and how design thinking is inherently interdisciplinary How learning is designed for general audiences or for purposely integrated educational experiences has also been examined *Philosophy of Education* Philosophy of Education Society (U.S.). observed and documented differences between alternative and traditional schools In trying to reconcile the gap between those systems Morrison details the lessons she learned about teachers students curriculum and the entire conception of why we educate our children Patterns in Secondary School Curriculum Tom C. Schrader,1985 *Educology* ,2005-10 **The Last Defenders of the Laager** Dickson Mungazi [Deceased],1998-05-21 When the Afrikaners Boers migrated northward from the Cape to escape British rule they encountered the Zulu people To protect their claims the Boers formed the laager a circle of wagons As years passed the laager acquired wider political dimensions and became a symbol of Afrikaner determination to survive under hostile conditions Ian D Smith last colonial leader of Zimbabwe from 1964 to 1979 and F W de Klerk the last white president of South Africa from 1988 to 1994 were the last defenders of the laager on the African continent Rising nationalism and the devastation of civil war would eventually force these leaders to abandon the colonial systems that they had inherited from their predecessors The study details the origins and development of the laager system in Africa It discusses how and why previously successful tactics to maintain the system would fail amidst the rising African nationalism of the late 20th century The focus of each of the eight chapters alternates between Smith and de Klerk and examines the efforts of each to overcome unanticipated challenges The Journal of Education ,1951
