Edward Durell Stone Modernisms Populist Architect:

Edward Durell Stone Mary Anne Hunting, 2013 Colossus visionary giant are superlatives used in the mid twentieth century to describe Edward Durell Stone 1902 1978 a celebrity architect whose wholly unique modern aesthetic of new romanticism played a crucial role in defining middle class culture Framed between the Great Depression and the oil embargo of the early 1970s the distinguished career of the native Arkansan is represented on four continents in thirteen foreign countries and in thirty two states his masterpiece the American Embassy chancery 1953 59 in New Delhi India Recognized in his prime as one of the nation s most sought after architects Stone s vast and prestigious workload brought prosperity on a scale rare in architecture in his time after the death of Frank Lloyd Wright some supporters thought Stone seemed destined to take the place of his personal hero and close friend as the great national architect But Stone also drew divergent reactions Such International Style buildings as his Museum of Modern Art 1935 39 in New York City an austere unornamented volume won critical approval in contrast his monumental postwar architecture the John F Kennedy Center for the Performing Arts 1958 71 in Washington DC among the best known exposed popular tastes by offering a broader definition of Modernism inclusive of decoration Enhanced interest in Stone s architecture has been spurred by the reconsideration of a number of his buildings The former Gallery of Modern Art 1958 64 at 2 Columbus Circle in New York City which was lost to a near complete makeover stimulated vigorous and at times contentious discussion that made evident the need for an objective reassessment His legacy of giving form to the aspirations of the emerging consumer culture and of reconciling Modernism with the dynamism of the age is established in Edward Durell Stone Modernism s Populist Architect Hut Pavilion Shrine: Architectural Archetypes in Mid-Century Modernism Miles David Samson, 2016-03-09 The phase of American architectural history we call mid century modernism 1940 1980 saw the spread of Modern Movement tenets of functionalism social service and anonymity into mainstream practice It also saw the spread of their seeming opposites Temples arcades domes and other traditional types occur in both modernist and traditionalist forms from the 1950s to the 1970s Hut Pavilion Shrine examines this crossroads of modernism and the archetypal and critiques its buildings and theory The book centers on one particularly important and omnipresent type the pavilion a type which was the basis of major work by Louis I Kahn Paul Rudolph Philip Johnson Minoru Yamasaki and other eminent architects While focusing primarily on the architecture culture of the United States it also includes the work of British European Team X and Scandinavian designers and writers Making connections between formal analysis historical context and theory the book continues lines of inquiry which have been pursued by Neil Levine and Anthony Vidler on representation and by Sarah Goldhagen and Alice Friedman on modernism s forbidden elements of the honorific and the visually pleasurable It highlights the significance of pavilionizing mid century designers such as Victor Lundy John Johansen Eero Saarinen and Edward Durell Stone and shows how frequently essentialist and traditionalist types appeared in the roadside vernacular of drive in restaurants gas stations furniture and car showrooms

branch banks and motels The book ties together the threads in mid century architectural theory that addressed aspects of type essential structure and primal humanistic aspects of environment making and discusses how these concerns outlived the mid century moment and in the designs and writings of Aldo Rossi and others they paved the way for Post Modernism
