Thomas Rymer Jones,2015-06-26 Excerpt from The Aquarian Naturalist A Manual for the Sea Side Our lamented friend the late Hugh Miller in his delightful work The Cruise of the Betsy surmises that some parties might have thought the geological chapters of the volume more entertaining if all the geology had been left out and yet even with such an authority before us we flatter ourselves that in a work written professedly on the subject of the Marine Aquarium a sketch of the Natural History of its inmates will be considered at least not misplaced About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
