Fast And Cold A Guide To Alaska Whitewater:

Fast & Cold Andrew Embick,1994 A comprehensive guide to seventy nine routes The author s anecdotes are thoroughly riveting [Alaska Adventure Guide](#) Melissa DeVaughn,2011-01-01 Since Alaska is so large and its options so varied this guide is organized primarily to help travelers zero in on the activity or activities that most appeal to them The first ten chapters focus solely on adventure travel each devoted to a single activity The five regional chapters that follow focus mainly on the basics in a given area of the state getting around shopping lodging dining and entertainment The objective is not to provide the most information about destinations or attractions but rather the most useful information Any destination or outfitter listed here has made the cut by proving itself a wonderful place to visit or a reliable company with which to do business

American Buffalo Steven Rinella,2008-12-02 From the host of the Travel Channel s The Wild Within A hunt for the American buffalo an adventurous fascinating examination of an animal that has haunted the American imagination In 2005 Steven Rinella won a lottery permit to hunt for a wild buffalo or American bison in the Alaskan wilderness Despite the odds there s only a 2 percent chance of drawing the permit and fewer than 20 percent of those hunters are successful Rinella managed to kill a buffalo on a snow covered mountainside and then raft the meat back to civilization while being trailed by grizzly bears and suffering from hypothermia Throughout these adventures Rinella found himself contemplating his own place among the 14 000 years worth of buffalo hunters in North America as well as the buffalo s place in the American experience At the time of the Revolutionary War North America was home to approximately 40 million buffalo the largest herd of big mammals on the planet but by the mid 1890s only a few hundred remained Now that the buffalo is on the verge of a dramatic ecological recovery across the West Americans are faced with the challenge of how and if we can dare to share our land with a beast that is the embodiment of the American wilderness *American Buffalo* is a narrative tale of Rinella s hunt But beyond that it is the story of the many ways in which the buffalo has shaped our national identity Rinella takes us across the continent in search of the buffalo s past present and future to the Bering Land Bridge where scientists search for buffalo bones amid artifacts of the New World s earliest human inhabitants to buffalo jumps where Native Americans once ran buffalo over cliffs by the thousands to the Detroit Carbon works a bone charcoal plant that made fortunes in the late 1800s by turning millions of tons of buffalo bones into bone meal black dye and fine china and even to an abattoir turned fashion mecca in Manhattan s Meatpacking District where a depressed buffalo named Black Diamond met his fate after serving as the model for the American nickel Rinella s erudition and exuberance combined with his gift for storytelling make him the perfect guide for a book that combines outdoor adventure with a quirky blend of facts and observations about history biology and the natural world Both a captivating narrative and a book of environmental and historical significance *American Buffalo* tells us as much about ourselves as Americans as it does about the creature who perhaps best of all embodies the American ethos
