DEMYSTIFYING THE SCIENCE OF TRIATHLON SPEED

JIM GOURLEY

Faster Demystifying The Science Of Triathlon Speed:

Faster Jim Gourley, 2025-11-04 Triathlon is among the world's most gear intensive sports. The gear you select and how you use it can mean big results or bigger disappointment. **FASTER** takes a scientific look at triathlon to see what truly makes you faster and busts the myths and doublespeak that waste your money and race times. In this fascinating exploration of the forces at play in the swim bike run sport, astronautical engineer and triathlete Jim Gourley shows where to find free speed, speed on a budget, and the gear upgrades that are worth it. **FASTER** offers specific science-based guidance on the fastest techniques and the most effective gear, answering questions like: Which wetsuit is best for me? What's the best way to draft a swimmer? Should I buy a lighter bike? Deep dish or disc wheels? Are lighter shoes faster? Who's right about running technique? Gourley reviews published studies in peer-reviewed journals to show what scientists have learned about swim drafting, pacing the bike leg, race strategy for short and long course racing, and the fastest ways to handle transitions. **FASTER** will change how you think about your body, your gear, and the world around you. With science on your side, you'll make the smart calls that will make you a better, faster triathlete.

The Race Within Jim Gourley, 2015-02-01 The Ultraman Triathlon, one of the most remarkable endurance races in the world, is a three-day, 320-mile race that circumnavigates the Big Island of Hawaii. With only 40 competitors allowed in each year, this invitation-only event hosts some of the most superlative athletes on the planet. *The Race Within* discusses the 30-year history of the sport and race director Jane Bockus, former Pan Am flight attendant who has never done a triathlon yet has dedicated herself to keeping the event true to its founding spirit for decades. This book follows Jane, her assistants, and a small cast of athletes through an entire year from the end of the 2012 Ultraman to the 2013 event and shows how they faced new challenges to the growth and well-being of the event and were forced to question if old traditions could survive in a world of constantly evolving sports entertainment. Granted full access to the race and the athletes, author Jim Gourley presents a look at this unique event and examines what it means to truly love sports.
