**Bodies out of Place** Barbara Harris Combs, 2022-09-01 *Bodies out of Place* asserts that anti-Black racism is not better than it used to be it is just performed in more nuanced ways Barbara Harris Combs argues that racism is dynamic so new theories are needed to help expose it The *Bodies out of Place* BOP theory she advances in the book offers such a corrective lens Interrogating several recent racialized events the Central Park birding incident the killing of Ahmaud Arbery sleeping while Black occurrences and others Combs demonstrates how the underlying belief that undergirds each encounter is a false presumption that Black bodies in certain contexts are out of place Within these examples she

illustrates how even amid professions to color blindness fixed attitudes about where Black bodies belong in what positions at what time and with whom still predominate Combs describes a long historical pattern of White pushback against Black advancement and illuminates how each of the various forms of pushback is aimed at social control and regulation of Black bodies She describes overt and covert attempts to push Black bodies back into their presumed place in U S society While the pushback takes many forms each works to paint a narrative to justify rationalize and excuse continuing violence against Black bodies Equally important Combs celebrates the resilient Black agency that has resisted this subjugation **Race, Policing, and Public Governance** Brian N.
