Futures Experts Predict Biblical Archaeology:

40 Futures ,2015-11-15 *"And in Length of Days Understanding"* (Job 12:12) Erez Ben-Yosef,Ian W. N.

Jones,2023-08-01 This two volume book presents cutting edge archaeological research primarily as practiced in the Eastern Mediterranean region These volumes key foci are inspired by the work of Thomas E Levy Volume 1 provides an in depth look at new archaeological research in the southern Levant primarily in modern Israel and Jordan inspired by Levy s commitment to understanding social political and economic processes in a long term or deep time perspective Volume 2 focuses on new research in several key areas of 21st century anthropological archaeology and archaeological science Volume 1 is organized around two major themes 1 the later prehistory of the southern Levant or the Neolithic Chalcolithic and Bronze Age and 2 new research in biblical archaeology or the historical archaeology of the Iron Age Each section contains a combination of new perspectives on key debates and studies introducing new research questions and directions Volume 2 is organized around five major themes 1 the archaeology of the Faynan copper ore district of southern Jordan a key region for archaeometallurgical research in West Asia where Levy conducted field research for over a decade 2 new research in archaeometallurgy beyond the Faynan region 3 marine and maritime archaeology focusing on issues of trade and environmental change 4 cyber archaeology an important 21st century field Levy conceived as the marriage of archaeology engineering computer science and the natural sciences and 5 key issues in anthropological archaeological theory In addition to presenting the reader with an up to date view of research in each of these areas the volume also has chapters exploring the connections between these themes e g the maritime trade of metals and cyber digital archaeological approaches to metallurgy The work contains contributions from both up and coming early career researchers and key established figures in their fields This book is an essential reference for archaeologists and scholars in related disciplines working in the southern Levant and the Eastern Mediterranean Heritage and Archaeology in the Digital Age Matthew L. Vincent,Víctor Manuel López-Mencheró Bendicho,Marinos Ioannides,Thomas E. Levy,2017-11-10 This book examines how computer based programs can be used to acquire big digital cultural heritage data curate and disseminate it over the Internet and in 3D visualization platforms with the ultimate goal of creating long lasting digital heritage repositories The organization of the book reflects the essence of new technologies applied to cultural heritage and archaeology Each of these stages bring their own challenges and considerations that need to be dealt with The authors in each section present case studies and overviews of how each of these aspects might be dealt with While technology is rapidly changing the principles laid out in these chapters should serve as a guide for many years to come The influence of the digital world on archaeology and cultural heritage will continue to shape these disciplines as advances in these technologies facilitate new lines of research serif The book is divided into three sections covering acquisition curation and dissemination the major life cycles of cultural heritage data Acquisition is one of the fundamental challenges for practitioners in heritage and archaeology and the chapters in this

section provide a template that highlights the principles for present and future work that will provide sustainable models for digital documentation Following acquisition the next section highlights how equally important curation is as the future of digital documentation depends on it Preservation of digital data requires preservation that can guarantee a future for generations to come The final section focuses on dissemination as it is what pushes the data beyond the shelves of storage and allows the public to experience the past through these new technologies but also opens new lines of investigation by giving access to these data to researchers around the globe Digital technology promises significant changes in how we approach social sciences cultural heritage and archaeology However researchers must consider not only the acquisition and curation but also the dissemination of these data to their colleagues and the public Throughout the book many of the authors have highlighted the usefulness of Structure from Motion SfM work for cultural heritage documentation others the utility and excitement of crowdsourcing as a citizen scientist tool to engage not only trained students and researchers but also the public in the cyber archaeology endeavor Both innovative tools facilitate the curation of digital cultural heritage and its dissemination Together with all the chapters in this volume the authors will help archaeologists researchers interested in the digital humanities and scholars who focus on digital cultural heritage to assess where the field is and where it is going
