Business Knowledge Treasure Collection, Dropshipping is a type of retailing where instead of the retailer meaning you actually keeping the goods in stock at their own location they instead pass the order along with the shipment details from a customer to a wholesaler. It is then the job of the wholesaler to dispatch the goods ordered directly to your customer for you. The great thing about this method is that not only do you not need to have a large warehouse for storing all the goods you are selling but also you make a profit through the price you pay for it wholesale and the price that you sell it to your customer for
