MPC-2000 (3-Window Cabinet)

General

The MPC-2000 Fire Alarm Control Unit provides a series of modular building blocks and software packages to construct a variety of configurations of hard-wired/conventional non-coded, zone coded and analog/addressable fire alarm control systems. The array of standard modules along with a wide selection of software gives the MPC-2000 the maximum versatility for the most demanding field requirements. The MPC-2000 can be configured to meet most common national, state and local codes. The combinations of proven solid state function modules, high performance microprocessor control and expanded software work together to make the MPC-2000 a versatile, durable and serviceable system control unit.

Description

The MPC-2000 consists of basic function modules, a microprocessor controller and system software which together may be configured in limitless numbers of arrangements to allow for custom tailoring of each control panel for specific and changing building fire protection system requirements. Along with the above flexibility, the MPC-2000 offers surface mounting
