deserves recognition and accommodation This set examines policies targeting disability to provide a multifaceted description of the political participation of people with disabilities as well as disability policy development in the United States The first volume focuses on political participation and voting issues and the second volume covers disability public policy In these two volumes numerous scholars and experts in the social sciences and humanities explore timely topics that are key to disability policy questions including activism voting race gender age health care social security civil rights abuse the environment and even death Readers will better understand the challenges that policymakers face in grappling with controversies over issues of social engineering and public policy often attempting to reconcile majority experience with minority rights The chapters analyze the history of disability politics describe the disability policy infrastructure as it currently exists in the United States and provide insight into current disability related controversies

Activist Affordances Arseli Dokumaci, 2023-01-13 For people who are living with disability including various forms of chronic diseases and chronic pain daily tasks like lifting a glass of water or taking off clothes can be difficult if not impossible In Activist Affordances Arseli Dokumaci draws on ethnographic work with differently disabled people whose ingenuity labor and artfulness allow them to achieve these seemingly simple tasks Dokumaci shows how they use improvisation to imagine and bring into being more habitable worlds through the smallest of actions and the most fleeting of movements what she calls activist affordances Even as an environment shrinks to a set of constraints rather than opportunities the improvisatory space of performance opens up

to allow disabled people to imagine that same environment otherwise Dokumac shows how disabled people s activist affordances present the potential for a more liveable and accessible world for all of us **Disability** Michael

Support Work Relationships Deborah Luise Lutz,2020-03-03 Deborah Luise Lutz explores support work relationships the relationships between people with intellectual disabilities in receipt of a personal budget and their support workers Through the methodology of Institutional Ethnography she specifically investigates how personal budget policies that organize support work in Germany and Australia influence support work relationships She found that the policies of personal budgets are connected to people s views and expectations about the support work relationship and the support work context that influence the relationship The author argues that disability research policy and practice need to be cognisant of this interconnection to improve the quality of support work relationships **The Routledge Companion to Art and Disability**
