Directors Dilemmas Tales From The Front Line:

Directors' Dilemmas Patrick Dunne, 2000 You rarely find a good advice book for directors since publishers presumably believe that its audience would be small and that in any case those sitting on corporate boards ought to know what they are doing But as the infamous debacles at Enron Tyco HealthSouth and other companies show this isn't always the case getAbstract.com heartily recommends this book to all corporate board members even those with long experience Patrick Dunne provides a useful decision making framework for resolving common problems It is enhanced by behind the scenes case studies that depict a variety of difficult company decisions and how board members arrived at them helpful for those facing similar crises After reading this book you will have only one dilemma left deciding which of Dunne's solutions to try first The Effective Director Chris Pierce, 2001 Although most directors are experienced well qualified managers many find that when they are appointed to the board there is little guidance available to them about their new role This volume offers advice on what a board of directors is supposed to do Using extensive real life case studies from industry business and the not for profit sectors the writers show how to develop the director role and improve the working methods of the board as a whole Quizzes tick boxes and bullet points appear throughout the text *The Handbook of International Corporate Governance* Institute of Directors, 2009 Rev ed of *The handbook of international corporate governance* Chris Pierce and Kerrie Waring 2004 **The Director**, 2008-08 **The British National Bibliography** Arthur James Wells, 2005
