**algebra**, 1996      *Discovering Advanced Algebra - Practice Your Skills* Harris et al, 2017-10-10      Advanced Algebra for Teachers (Revised Edition) Kirthi Premadasa, Rajee Amarasinghe, Oscar Vega, 2012-04-30 Secondary school math teachers in several states are required to successfully pass state exams in Algebra. Often these exams require a wide spectrum of knowledge ranging from high school Algebra to Abstract Algebra. The book *Advanced Algebra for Teachers* is uniquely designed to cover this variety of topics in a user friendly manner. It is currently used by secondary school teachers in California who are training for the Algebra subtest of the CSET exam, but the text should be ideally suited for schoolteachers nationwide hoping to acquire a similar body of knowledge. The topics are presented through worked out examples in the simplest language possible. Consequently, these concepts can be introduced to readers who may not be the traditional audience for this type of content. Another salient feature of the book is that the examples and exercise sets cover skill levels from basic concepts to more difficult problems, gently exposing the reader to the intensity present in most certification exams. In more practical terms, the text assists the practicing teacher with a critical overview of a comprehensive algebra curricular from basic algebra to abstract algebra. Dr Kirthi Premadasa, PhD, Purdue University, is an Assistant Professor in the Mathematics Department at University of Wisconsin Marathon County. Dr Premadasa has more than seventeen years of mathematics teaching and has taught the entire spectrum of undergraduate algebra. His current research is in undergraduate mathematics education with an emphasis on student bottlenecks in solving algebra word problems and integration applications. He was one of the two Wisconsin Teaching Fellows selected from all thirteen campuses of the UW Colleges in all disciplines in 2010. Dr Rajee Amarasinghe, PhD, Indiana University, is an Associate Professor in the Mathematics Department at California State University Fresno where he teaches mathematics classes for perspective elementary and secondary school teachers. Also, he directs and conducts local and international professional development workshops for mathematics teachers. Dr Oscar Vega is an Assistant Professor in the mathematics department at California State University Fresno. He received his PhD in Mathematics in 2006 from the University of Iowa.      *Discovering Algebra*, 2002      **Discovering Algebra: Teaching and worksheet masters** Casey FitzSimons, Margaret Moore, Mary
