The author, who has been a leader for decades, thought he would only write one leadership book. Not only did this book begin a storm of sharing knowledge, it encouraged the author to do an extensive rewrite. The author's greatest discovery in life was that leadership could be developed. Even his understanding of leadership after all these years could be developed. This understanding goes beyond one's desire to succeed in business or receive respect as an authority figure. The author endeavors to change the reader from the inside out. Anyone can become a leader, but many do not. The author sees people use leadership as a buzzword but instead breaks it down into an art of self-discipline and patience. The author includes everything the reader needs to take that big step into the journey as a developing leader. Each chapter outlines various elements of developing one's leadership, such as influence and how to use it, personal growth, and prioritizing your time and means, no matter how busy you get. In this detailed summary and analysis of *Developing the Leader Within You 2.0*, you'll learn:

1. The ten essentials of leadership and how to develop them.
2. How to make prioritizing work for YOU.
3. Why relaxing is essential as having high energy.
