Embodied Modernities Corporeality Representation And Chinese Cultures:

Embodied Modernities Fran Martin, Ari Larissa Heinrich, 2006-07-31 From feminist philosophy to genetic science scholarship in recent years has succeeded in challenging many entrenched assumptions about the material and biological status of human bodies Likewise in the study of Chinese cultures accelerating globalization and the resultant hybridity have called into question previous assumptions about the boundaries of Chinese national and ethnic identity The problem of identifying a single or definitive referent for the Chinese body is thornier than ever By facilitating fresh dialogue between fields as diverse as the history of science literary studies diaspora studies cultural anthropology and contemporary Chinese film and cultural studies *Embodied Modernities* addresses contemporary Chinese embodiments as they are represented textually and as part of everyday life practices The book is divided into two sections each with a dedicated introduction by the editors The first examines Thresholds of Modernity in chapters on Chinese body cultures in the late nineteenth and early twentieth centuries a period of intensive cultural political and social modernization that led to a series of radical transformations in how bodies were understood and represented The second section on Contemporary Embodiments explores body representations across the People's Republic of China Taiwan and Hong Kong today Contributors Chris Berry Louise Edwards Maram Epstein Larissa Heinrich Olivia Khoo Fran Martin Jami Proctor Xu Tze-lan D Sang Teri Silvio Mark Stevenson Cuncun Wu Angela Zito John Zou

Queer Sinophone Cultures Howard Chiang, Ari Larissa Heinrich, 2013-11-26 The Sinophone framework emphasises the diversity of Chinese speaking communities and cultures and seeks to move beyond a binary model of China and the West Indeed this strikingly resembles attempts within the queer studies movement to challenge the dimorphisms of sex and gender Bringing together two areas of study that tend to be marginalised within their home disciplines *Queer Sinophone Cultures* innovatively advances both Sinophone studies and queer studies It not only examines film and literature from Mainland China but expands its scope to encompass the underrepresented Sinophone world at large in this case Taiwan Hong Kong Malaysia Singapore and beyond Further where queer studies in the U S Europe and Australia often ignore non Western cultural phenomena this book focuses squarely on Sinophone queerness providing fresh critical analyses of a range of topics from works by the famous director Tsai Ming Liang to the history of same sex soft core pornography made by the renowned Shaw Brothers Studios By instigating a dialogue between Sinophone studies and queer studies this book will have broad appeal to students and scholars of modern and contemporary China studies particularly to those interested in film literature media and performance It will also be of great interest to those interested in queer studies more broadly
