The Managed Body Chris Bobel, 2018-10-19 The Managed Body productively complicates menstrual hygiene management MHM a growing social movement to support menstruating girls in the Global South Bobel offers an

invested critique of the complicated discourses of MHM including its conceptual and practical links with the Water Sanitation and Hygiene WASH development sector human rights and the girling of development Drawing on analysis of in depth interviews participant observations and the digital materials of NGOs and social businesses Bobel shows how MHM frames problems and solutions to capture attention and direct resources to this highly tabooed topic She asserts that MHM organizations often inadvertently rely upon weak evidence and spectacularized representations to make the claim of a hygienic crisis that authorizes rescue And she argues the largely product based solutions that follow fail to challenge the social construction of the menstrual body as dirty and in need of concealment While cast as fundamental to preserving girls dignity MHM prioritizes technological fixes that teach girls to discipline their developing bodies vis a vis consumer culture a move that actually accommodates more than it resists the core problem of menstrual stigma

Framing Fat Samantha Kwan,Jennifer Graves,2013-05-03 According to public health officials obesity poses significant health risks and has become a modern day epidemic A closer look at this so called epidemic however suggests that there are multiple perspectives on the fat body not all of which view obesity as a health hazard Alongside public health officials at the Centers for Disease Control and Prevention are advertisers of the fashion beauty complex food industry advocates at the Center for Consumer Freedom and activists at the National Association to Advance Fat Acceptance Framing Fat takes a bird s eye view of how these multiple actors construct the fat body by identifying the messages these groups put forth particularly where issues of beauty health choice and responsibility and social justice are concerned Samantha Kwan and Jennifer Graves examine how laypersons respond to these conflicting messages and illustrate the gendered raced and classed implications within them In doing so they shed light on how dominant ideas about body fat have led to the moral indictment of body nonconformists essentially framing them for their fat bodies
