Embrace of the Daimon Sandra Lee Dennis, 2013-03 Next Generation Indie Book Award 2015 Winner New Age USA Best Book Awards 2014 Winner Philosophy ForeWord Reviews Book of the Year 2013 Finalist Body Mind Spirit Have you wrestled with uncanny nightmarish imagery in dreams or waking Life crises trauma deep meditation prayer or inquiry can unleash surprisingly compelling yet scary even revolting imagery and related feelings With few maps to help navigate this terrain we are tempted to deny or repress our experience Precipitated by a descent into the dark recesses of her own psyche in this award winning book Sandra Dennis explores the eruption of strange wild compelling characters from the unconscious that she calls daimons The Greeks understood the daimon as the intermediary between gods and humans the guardian spirit assigned at birth that connects heaven and earth These messengers come as agents of inner transformation When we welcome them with understanding and compassion they expand our consciousness and connect us with healing qualities of strength compassion and vision This book leads us to this growing edge of the psyche and invites our curiosity and caring It charts a course of radical acceptance of experience no matter how painful or difficult as absolutely necessary for our well being and the well being of the planet Sandra Dennis brings a spiritual context to what most disturbs us She offers a simple method to navigate these alarming images and anxieties Instead of treating them as perversions to banish we are encouraged to embrace their primal power becoming more intelligent loving and whole in the process Embrace of the Daimon can help Calm your concerns by understanding the role of these daimonic images in the larger context of growth to wholeness or individuation Find the courage to explore these states of mind with more intimate compassionate interest Learn to navigate your way through the unusual sensations that often accompany breakthroughs of the daimonic Expand your understanding of Jungian theory with regard to the little explored mind body connection role in personal development Embrace of the Daimon offers a rare look at this inner landscape and will help make your own trip or that of those you are helping less harrowing Reviewers have called Embrace of the Daimon a pioneering work a courageous and important book a significant contribution to the study of altered states of consciousness original and profound a rare documentation of unconscious processes a work that advances our understanding of a descending spirituality tremendously eloquently descriptive deeply moving re imagines the work of integrating shadow to find beauty and dignity bridges the worlds of the scholar and the visionary and takes us to the radical edge of Jungian psychology today One reader commented It is the only contemporary firsthand account of the day to day practice of mystical depth psychology that I have come across I find it a very practical guide to my own inner and psychic realm journeys Another called it the most honest work on the psychoid imaginal realms since Corbin the engagement with the archetypal invasions more like Jung in the Red Book than the scholarly Corbin

**Embrace of the Daimon** Sandra Lee Dennis, 2001 Some call the imaginal the realm of the archetypes the home of the gods and goddesses the land of the daimon or the source of creativity Others simply call it the soul The daimon of the imaginal world facilitate the incarnation of

soul into the physical body and transforming these dark energies allows us to progress as spiritual beings to live life from a more conscious view Sandra Dennis suggests that attitudes devaluing the erotic feminine instinctual energies particularly those of sexuality and destructiveness and the marginalization of bodily sensation itself block these daimonic soul images from incarnating She discusses our tendency to block these transforming forces and offers suggestions on how to embrace and reclaim them to allow for a more integrated existence She explains sensations associated with daimonic imagery fragmentation rage anxiety pain also the other side ecstasy bliss orgasmic release understanding that all of these sensations form the basis for profound change in the sense of self Bibliography Index
