Embracing Complexity Strategic Perspectives For An Age Of Turbulence:

Embracing Complexity Jean G. Boulton, Peter M. Allen, Cliff Bowman, 2015-07-30 The book describes what it means to say the world is complex and explores what that means for managers policy makers and individuals The first part of the book is about the theory and ideas of complexity This is explained in a way that is thorough but not mathematical It compares differing approaches and also provides a historical perspective showing how such thinking has been around since the beginning of civilisation It emphasises the difference between a complexity worldview and the dominant mechanical worldview that underpins much of current management practice It defines the complexity worldview as recognising the world is interconnected shaped by history and the particularities of context The comparison of the differing approaches to modelling complexity is unique in its depth and accessibility The second part of the book uses this lens of complexity to explore issues in the fields of management strategy economics and international development It also explores how to facilitate others to recognise the implications of adopting a complex rather than a mechanical worldview and suggests methods of research to explore systemic path dependent emergent aspects of situations The authors of this book span both science and management academia and practice thus the explanations of science are authoritative and yet the examples of changing how you live and work in the world are real and accessible The aim of the book is to bring alive what complexity is all about and to illustrate the importance of loosening the grip of a modernist worldview with its hope for prediction certainty and control

The Dao of Complexity

Jean Boulton,2024-09-23 The pandemic climate change rising populism geo political unrest just a few of the issues causing turbulence in today s world We are living

and working in times that are complex and fast changing The Dao of Complexity is a book about challenging and deepening worldviews It explores the remarkable resonance between complexity and Daoism engaging with the processual contextual and emergent nature both of ourselves and of the world of which we are a part It connects to ideas from such diverse fields as quantum physics brain science political theory and economics Jean asks what making sense of the world means in these turbulent times and how that can galvanise action for those of us trying to make a difference trying to make waves in a world of increasing connectivity polarisation and fragility Taking its lead from Daoist texts the design encourages readers to open at any page and use the short stand alone yet networked pieces as reflective starting points This book will be of interest to scholars and those striving for social change as well as managers and policy makers looking for inspiration The general reader interested in science philosophy and ancient wisdom will find relatable material to explore how to engage effectively in this complex world

Governing Turbulence, Risk and Opportunities in the Complexity Age Antonio Bazilio Floriani Neto, Enrique Cáceres Nieto, Guglielmo Chiodi, Sara Petroccia, 2018 The book is composed of several articles that explore complexity in its most varied aspects The solution of contemporary problems whatever they may be requires a multifaceted vision far beyond the reductionist perspective The study of complex systems however does not have the capacity to offer ready answers to the challenges of humanity On the contrary it points to the increase in uncertainty the need to control variables and uncertainty This does not mean therefore that we should simply ignore the social economic and political phenomena that are all around us What this book demonstrates is the importance of knowledge being disseminated and it is imperative that different sciences exchange ideas theories and breakthroughs

Summary of the 1998 Colloquium Exploring the Application of Complex Adaptive Systems to Business, 1999 **Embracing Complexity**, 2011

Moving the Chains Domenico LePore, 2019-06-20 The way we design and work within our organizations is profoundly impacted by digital technologies and complexity Speed of flow is critical for innovation production communication and delivery Arguably silo based functional hierarchies are failing to guarantee the necessary speed of flow as well as quality and involvement of people Applying techniques is insufficient What is required is a radical rethink to compete and thrive Nothing less than a new way of understanding an epistemological framework will do This book aims to provide such a framework and show how we can break free from silos and silo thinking through a truly systemic approach It presents an operational solution that allows organizations to effectively adopt digital technologies and reap their benefits It highlights the new kind of leadership that our increasingly network based and distributed business world requires to achieve sustainable prosperity
