*Afro-Cuban Religious Arts* Kristine Juncker, 2014-07-15 This book profiles four generations of women from one Afro Cuban religious family From a plantation in Havana Province in the 1890s to a religious center in Spanish Harlem in the 1960s these women were connected by their prominent roles as leaders in the religions they practiced and the dramatic ritual artwork they created Each woman was a medium in Espiritismo communicating with dead ancestors for guidance or insight and also a santera or priest of Santería who could intervene with the oricha pantheon Kristine Juncker argues that by creating art for more than one religion these women shatter the popular assumption that Afro Caribbean religions are exclusive organizations Most remarkably the portraiture sculptures and photographs in *Afro Cuban Religious Arts* offer rare glimpses into the rituals and iconography of these religions Santería altars are closely guarded limited to initiates and typically destroyed upon the death of the santera while Espiritismo artifacts are rarely considered valuable enough to pass on The unique and protean cultural legacy detailed here reveals insights into how ritual art became popular imagery sparked a wider dialogue about culture inheritance attracted new practitioners and enabled the movement to explode internationally

**Book Publishers Directory** ,1977      *The Statesman's Year-book* ,1925      A History of Ecology and Environmentalism in Spanish American Literature Scott M. DeVries, 2013-09-05 A History of Ecology and Environmentalism in Spanish American Literature undertakes a comprehensive ecocritical examination of the region s literature from the foundational texts of the nineteenth century to the most recent fiction The book begins with a consideration of the way in which Argentine Domingo Faustino Sarmiento s views of nature through the lens of the categories of civilization and barbarity from Facundo 1845 are systematically challenged and revised in the rest of the century Subsequently this book develops the argument that a vital part of the cultural critique and aesthetic innovations of Spanish American modernismo involve an ecological challenge to deepening discourses of untamed development from Europe and the United States In other chapters many of the well established titles of regional and indigenista literature are contrasted to counter traditions within those genres that express aspects of environmental justice deep ecology the relational role of emotion in nature protectionism and conservationism even the rights of non human nature Finally the concluding chapters find that the articulation of ecological advocacy in recent fiction is both more explicit than what came before but also impacts the formal elements of literature in unique ways Textual conventions such as language imagery focalization narrative sequence metafiction satire and parody represent innovations of form that proceed directly from the ethical advocacy of environmentalism The book concludes with comments about what must follow as a result of the analysis including the revision of canon the development of literary criticism from novel approaches such as critical animal studies and the advent of a critical dialogue within the bounds of Spanish American environmentalist literature A History of Ecology and Environmentalism in Spanish American Literature attempts to develop a sense of the way in which ecological ideas have developed over time in the literature particularly the way in which many Spanish American texts anticipate several of the ecological discourses that have recently become so central to global culture current environmentalist thought and the future of humankind
