

How to Prevent Cancer

by Dr. David Brownstein

- Routinely, I find my new patients have key nutrient deficiencies and hormonal imbalances, usually as a result of eating the Standard American Diet. I refer to it as the SAD diet. This diet can predispose you to many nutrient and hormonal imbalances and leads to a devitalized body.
- I find they have been exposed to an overload of environmental toxins in food, water, air, and consumer products, and these exposures are suppressing and disrupting their immune systems.

What's more . . .

- Their bodies have been damaged by harmful and unnecessary drugs.
- And finally, they've been misinformed by the government, the media, and most egregiously, by a medical establishment controlled by the pharmaceutical industry.

The human body is a wonderful machine, but all of its millions of cells must function together harmoniously, and not be inhibited, harmed, or thrown into chaos. If they are, it sets the stage for chronic illnesses such as cancer to develop.

In North America, it is projected that *one in three people* will be diagnosed with cancer in their lifetime. In fact, we expect to see *1,825,400 new cases of cancer this year*, and, sadly, a large percentage of these people will die from it.

Each year, I receive the annual report from *CA: A Cancer Journal for Clinicians*, a summary of cancer statistics in the United States dating back to 1930.

The most shocking chart shows the annual age-adjusted cancer death rates among men and women, and the sad truth is . . .

Cancer death rates are mostly unchanged in 80 years!

Surprised? Most people are. All the drug industry propaganda claims that we're making real progress in the war against cancer. But look at the facts . . .

Unleash Your God-Given Healing Ginny Dent Brant, 2020-03-24 Ginny Brant's cancer diagnosis sent her on a quest to discover what caused a health nut to contract a deadly and aggressive form of breast cancer. What she found may surprise and inspire you. She challenges you to change what your doctor has no control over: your lifestyle and health habits. Brant connects the dots between nutrition, lifestyle, integrative and conventional medicine, and biblical wisdom to reveal how your body was created with self-healing mechanisms that work optimally when you do your part. But you need to get back to the Garden of Eden: the basics in life. By implementing a few lifestyle changes, you can begin building your immune system while lowering your toxic load. Learn how to enable your body to work as God intended, thereby unleashing your God-given healing. **Healing With Iodine** Mark

Sircus, 2018-06-13 It is estimated that 90 percent of our population is iodine deficient, and odds are most of us wouldn't think twice about it. What you don't know is that this deficiency can directly result in some terrible health problems, from cancer to heart failure to a host of other dreaded diseases. And what's even worse is that while this deficiency makes most of us highly susceptible to each of these problems, few medical professionals ever bother to see if iodine deficiency is the underlying cause of these problems. What should be a red flag for diagnosing a disease may simply go undetected and untreated. Now bestselling health author Dr. Mark Sircus has written *Healing With Iodine*, a clear guide to understanding and recognizing this missing link to better health. *Healing With Iodine* is divided into three parts. Part 1 explains what iodine is, how it works in our body to maintain maximum health, and why most of us don't get enough iodine in our diet. Part 2 looks at the many current uses iodine plays in today's treatments. It also offers guidelines for finding the right iodine and how it should be used. Part 3 looks at some of our most common health problems, including thyroid disorders, heart disease, and cancer, as well as cognitive issues. It also explains how each is related to iodine deficiency and what can be done to avoid these issues. Dr. Sircus points out that there is a growing movement in the health community to use iodine as a treatment, offer, however, for too many of us continue to be unaware of just how crucial iodine can be to supporting our daily metabolism. Here is, in fact, a red flag that offers the type of information that we should all be aware of. And for many, it may be just the thing that helps us avoid or overcome some of these common disorders. **Integrative and Functional Medical Nutrition Therapy** Diana Noland, Jeanne A.

Parallel Universe Sonya Davies, 2012-10-10 Chronic Fatigue and Fibromyalgia in adolescence are insidious diseases they steal hope perspective and time sadly the medical profession has a huge divergence of opinion on the illness the causes and the cure there just seems to be no definitive answers The despair that this causes is deep and searing This book is about one woman s fight to restore her daughter to health when diagnosed with these diseases It charts the many professionals that the family saw to try to find a cure for their daughter Many of the health professionals dismissed the illness believing it to be a disease of malingerers This lack of understanding of this illness and its origins is one of the defining reasons for writing this book Sufferers need to understand that they are not alone and that there is hope and that this illness is serious and is a real illness it is not psychosomatic it is not psychiatric it is a physical illness that has real symptoms and there is hope that you can put together some treatment options that may help them Claudia was 13 years old when her body just seemed to run out of energy It had been a gradual process but with the start of high school and all of the changes that happened at that time the key triggers of this horrific illness were masked It wasn t until she passed out that the extent of the problem really became very very obvious Sonya Davies is the author and she lives in Melbourne Victoria with her husband of 20 years Mark and her 4 children A professional woman who has worked in Marketing for 35 years she had a varied and interesting career full of travel and many diverse and interesting experiences she always felt that she was very fortunate She was not prepared when her 13 year old daughter Claudia passed out in her walk in ward robe and started to suffer seizures Claudia spiralled very quickly over a period of 5 months into being seriously unwell being unable to walk wheel chair bound using a toilet and shower stool and needing to be carried everywhere She was 5 foot 5 and weighed 40 kilos Sonya was beside herself her life as she had known it stopped she could not work she could not leave her daughter alone She was desperate to get help She thought she could get some answers from Doctors or a specialist and they would tell her what to do Imagine her shock when every test that they did came back normal while her daughter kept getting more and more unwell That was when the family entered the parallel universe this universe operates next to but separate from the real universe this universe is inhabited by the chronically ill looking for treatments for health issues for which medical

professionals have no answers She had never felt such despair or realised that such despair was possible for her She is a positive can do woman every adversity has an answer you just have to connect the dots her daughter was sick she could not believe that she could not find a person to fix her But every corner I turned every doctor or health professional I took her to could not help I got nowhere I hit brick wall after brick wall My daughter was spiralling into very poor physical condition and suffering deep despair as she was constantly being told that she was hysterical and that this condition was psychosomatic She is a very intelligent girl and does not have a hysterical bone in her body So telling her it was all in her head her body had turned on pain signals and would not turn them off just made her feel more and more inadequate obviously she had done something to make this happen The family saw over 50 health professionals all offering other similarly unhelpful suggestions Well not suggestions pronouncements they all pronounced something and sent them home in agony with no help and no idea where to get help Their daughter was unable to sleep had muscles that got harder and tighter in her arms and
