Psychology Applied to Teaching Jack Snowman, Robert Frederick Biehler, 2006 Scaling up excellence is the key to creating a great organisation It s how a small enterprise expands without losing focus It s how a brilliant new idea or plan developed by the few goes on to be adopted by the many And in hard times and tough situations it s how pockets of smart new thinking overcome cultures of indifference or negativity An organisation that doesn t know how to scale up what is best within it won t achieve long term success Bestselling author Robert Sutton and his Stanford colleague Huggy Rao have devoted nearly a decade to uncovering what it takes to create and spread outstanding performance and in *Scaling Up Excellence* they share the fruits of their research Drawing on case studies that range from Silicon Valley enterprises to non profit organisations they provide crucial insights into corporate cultures both good and bad and offer a road map for establishing and stimulating excellence In the process they show how to use premortems when making big decisions about change They reveal why seven is so often the magic number when it comes to team size They examine successful and unsuccessful quests for improvement u in hospitals schools and elsewhere And they discuss when a single corporate mindset is best Catholicism and when local variation is preferable Buddhism *Scaling Up Excellence* is the first management book devoted to what is u or should be u a core priority for every organisation As such it is destined to become the standard bearer

Exceptional Children William L. Heward, 2009 *Exceptional Children* An Introduction to Special Education has always been known for it s innovation strong research base and accessibility The ninth edition has all of those strengths but has a greater focus on highly effective research based practices that are described in a very step by step applied manner This book is for

those teachers who will be professionals in the area of special education or those who are working with students that have exceptionalities American Book Publishing Record ,2005 *Methods of Teaching* Preston D. Feden,Robert Mark Vogel,2003 METHODS OF TEACHING APPLYING COGNITIVE SCIENCE TO PROMOTE STUDENT LEARNING helps prospective teachers learn how to apply recent findings by cognitive scientists to their classroom practices in order to promote true conceptual change among their students The book focuses squarely on ways to bring about deep rather than surface learning to all students The authors use and model many of the teaching strategies they present focusing on major core concepts and utilizing a rich array of pedagogical features to help prospective teachers build a deep understanding of how people learn and what strategies they can use as teachers to help their students achieve long lasting comprehension Throughout the text the authors emphasize the need to change instruction in light of new findings from cognitive science Planning for instruction behavior management and technology are integrated into each chapter **Teaching the Struggling Reader** Barbara R. Schirmer,2010 An innovative resource for literacy teachers Teaching the Struggling Reader takes a novel approach to instruction the reading program is based on the needs of the struggling reader rather than the other way around Most teachers plan their reading lesson and then work in the needs of a struggling reader This book is for teachers looking for a more contemporary and inclusive way to teach reading Starting with assessment the author shows you how to group readers by ability and need rather than by risk factors Finally you will save planning time by learning how to incorporate strategies that you already know into developing your lesson rather than changing your style to accommodate the requirements of a particular reading program *Bibliographic Guide to Education* ,2002 lists publications cataloged by Teachers College Columbia University supplemented by The Research Libraries of The New York Public Library
