## **Ego Psychology And The Problem Of Adaptation:**

**Ego Psychology and the Problem of Adaptation** Heinz Hartmann, 1958 One becomes aware of the tremendous impact of his theories when one finds that it was in this essay that concepts such as the undifferentiated phase the conflict free ego sphere conflict free ego development and primary and secondary autonomy were developed for the first time Hartmann discusses the role of endowment and of the inborn ego apparatuses and their adaptive nature The idea that ego defenses may simultaneously serve the control of instinctual drives and the adaptation to the external world finds its expression in this essay Hartmann's concept of adaptation is in no way restricted to the cultural sense of the term It is a truly inclusive conception and he views it as an ongoing process which has its roots in the biological structure and with many of its manifestations reflecting the constant attempts of the ego to balance intrasystemic and intersystemic tensions

Benyamini, 2023-12-08 In this fascinating and ground breaking book Itzhak Benyamini uses discourse analysis to lay out the way Lacan constructed his own intellectual discourse informed by Judeo Christianity Offering an understanding of Lacan's emergence and intellectual struggles with significant contemporary intellectuals the author builds a panoramic view of the entire psychoanalytic discourse at the time of the foundational post Freudian generation By engaging in close reading of texts and seminars given by Lacan between the 1930s and 50s Benyamini uncovers the coming into being of Lacan's key concepts The Mirror Stage the Imaginary the Real the Symbolic the Name of the Father the Other jouissance and das Ding The author argues that Lacan wished to regulate this process of conceptualization by connecting the concepts of the Father and the Other with themes from the Judeo Christian tradition especially the Biblical one to create a clinical ethic that does not reflect a worldview or ideology and is guided solely by the analysand's unconscious desire      *Theory & Practice in Clinical Social Work* Jerrold R. Shakespeare, Adaptation, Psychoanalysis Matthew Biberman, 2017-01-12 In *Shakespeare Adaptation Psychoanalysis* Matthew Biberman analyzes early adaptations of Shakespeare s plays in order to identify and illustrate how both social mores and basic human psychology have changed in Anglo American culture Biberman contests the received wisdom that Shakespeare s characters reflect essentially timeless

truths about human nature To the contrary he points out that Shakespeare s characters sometimes act and think in ways that have become either stigmatized or simply outmoded Through his study of the adaptations Biberman pinpoints aspects of Shakespeare s thinking about behavior and psychology that no longer ring true because circumstances have changed so dramatically between his time and the time of the adaptation He shows how the adaptors changes reveal key differences between Shakespeare s culture and the culture that then supplanted it These changes once grasped reveal retroactively some of the ways in which Shakespeare s characters do not act and think as we might expect them to act and think Thus Biberman counters Harold Bloom s claim that Shakespeare fundamentally invents our sense of the human rather he argues our sense of the human is equally bound up in the many ways that modern culture has come to resist or outright reject the behavior we see in Shakespeare s plays Ultimately our current sense of the human is bound up not with the adoption of Shakespeare s psychology perhaps but its adaption or in psychoanalytic terms its repression and replacement
