Print, Visuality, and Gender in Eighteenth-Century Satire Katherine Mannheimer, 2012-05-23 This study interprets eighteenth century satire's famous typographical obsession as a fraught response to the Enlightenment's ocularcentric epistemological paradigms as well as to a print cultural moment identified by book historians as increasingly visual a moment at which widespread attention was being paid for the first time to format layout and eye catching advertising strategies On the one hand the Augustans were convinced of the ability of their elaborately printed texts to function as a kind of optical machinery rivaling that of the New Science enhancing readers' physical but also moral vision On the other hand they feared that an overly scrutinizing gaze might undermine the viewer's natural faculty for candor and sympathy delight and desire In readings of Pope Swift and Montagu Mannheimer shows how this distrust of the empirical gaze led to a reconsideration of the ethics and most specifically the gender politics of ocularcentrism Whereas Montagu effected this reconsideration by directly satirizing both the era's faith in the visual and its attendant publishing strategies Pope and Swift pursued their critique via print itself thus whether via facing page translations fictional editors or disingenuous footnotes these writers sought to ensure that typography never became either a mere tool of or target for the objectifying gaze but rather that it remained a dynamic and interactive medium by which readers could learn both to see and to see themselves seeing

Eighteenth-Century Women Poets and Their Poetry Paula R. Backscheider, 2005-12-31 Co Winner James Russell Lowell Prize Modern Language Association This major study offers a broad view of the writing and careers of eighteenth century women poets casting new light on the ways in which poetry was read and enjoyed on changing poetic tastes in British culture and on the development of many major poetic genres and traditions Rather than presenting a chronological survey Paula R Backscheider explores the forms in which women wrote and the uses to which they put those forms Considering more than forty women in relation to canonical male writers of the same era she concludes that women

wrote in all of the genres that men did but often adapted revised and even created new poetic kinds from traditional forms Backscheider demonstrates that knowledge of these women's poetry is necessary for an accurate and nuanced literary history Within chapters on important canonical and popular verse forms she gives particular attention to such topics as women's use of religious poetry to express candid ideas about patriarchy and rape the continuing evolution and important role of the supposedly antiquarian genre of the friendship poetry same sex desire in elegy by women as well as by men and the status of Charlotte Smith as a key figure of the long eighteenth century not only as a Romantic era poet

Eighteenth-Century Poetry David Fairer, Christine Gerrard, 2014-09-30 Currently the definitive text in the field and now available in an expanded third edition *Eighteenth Century Poetry* presents the rich diversity of English poetry from 1700 1800 in authoritative texts and with full scholarly annotation Balanced to reflect current interests and favorites including prominent poets like Finch Swift Pope Montagu Johnson Gray Burns and Cowper as well as less familiar material offering a variety of voices and new directions for research and learning Includes 46 new poems with more texts by women poets and the inclusion of four additional poets Mary Barber Mehetabel Wright Anna Seward and Mary Robinson poems reflecting new ecological approaches to 18th century literature and poems on the art of writing Accessible and user friendly with generous head notes full foot of page annotations an expanded thematic index and a visually appealing text design *Presentations of the 29th Annual SW/Texas Regional Meeting of the Popular Culture and American Culture Association* Gypsey Elaine Teague, 2008-12-18 Gender is an often misunderstood subject area even within the discipline even to those who teach and write about it One of my presenters when she first approached me to present at the conference asked What does my paper really have to do with gender To me the answer was obvious everything has to do with gender Gender is everywhere from the cradle to the grave What color blanket are we given at birth What clothes are we laid out in at death We are bombarded with advertisements specifically targeted at our gender either male female or somewhere in between We are judged by our gender which is often synonymous with our sex although in many of the presentations through the years it is becoming evident that more and more people understand the difference Our clothing food entertainment and reading material are all tied to gender in one form or another Gender is like the air It is all around us seldom thought of but always present In an area that spans literature politics sex religion and personal choices it is hard to get finite and clear cut delineations The contributors are the main focus here and I have just been the ringmaster of this incredible circus of ideas Without them this could never have gone to press and it is all our hopes that you enjoy the volume and take something away from it that you did not anticipate **The Cambridge History of English Literature, 1660-1780** John Richetti, 2005-01-06 The Cambridge History of English Literature 1660 1780 offers readers discussions of the entire range of literary expression from the Restoration to the end of the eighteenth century In essays by thirty distinguished scholars recent historical perspectives and new critical approaches and methods are brought to bear on the classic authors and texts of the period Forgotten or

neglected authors and themes as well as new and emerging genres within the expanding marketplace for printed matter during the eighteenth century receive special attention and emphasis The volume s guiding purpose is to examine the social and historical circumstances within which literary production and imaginative writing take place in the period and to evaluate the enduring verbal complexity and cultural insights they articulate so powerfully
