The Veterinarian's Guide to Animal Welfare Bonnie V. Beaver, Gail C. Golab, 2022-11-26 The Veterinarian's Guide to Animal Welfare provides an overview of various aspects of animal welfare that are particularly relative to the veterinary profession. The book explores various ways of viewing and assessing welfare as well as the numerous factors that influence perceptions. Emphasis is placed on contemporary issues across and within major species groups. The book's authors are internationally known experts in the veterinary aspects of animal welfare and have written numerous articles on animal welfare, behavior, euthanasia, and the human-animal bond. This book is written for the veterinary profession and was designed to be used as a textbook for animal welfare courses at colleges and schools of veterinary medicine. It complements the Model Curriculum for the Study of Animal Welfare (AVMA 2015) and its attendant course syllabus. This is an important resource for graduate veterinarians seeking to improve their understanding of the numerous aspects of animal welfare. Specifically written for veterinarians and veterinary students. Addresses historical, cultural, and contemporary aspects of animal welfare. Complements the Model Curriculum for the Study of Animal Welfare developed by the American Veterinary Medical Association (AVMA).

Efficient Livestock Handling Bonnie V. Beaver, Don Höglund, 2015-10-30 Efficient Livestock Handling: The Practical Application of Animal Welfare and Behavioral Science brings together the science-based disciplines of animal behavior and welfare to discuss how knowledge of one area of behavior can be used to promote the other. Emphasis is on cattle and horses, but swine, sheep, and goats are also covered. Three major areas are included and integrated into a practical approach to working with the various species. Basic behavior as it applies to handling is discussed, with differences noted between species. The connections of behavior and handling are covered, and practical applications discussed, both with a liberal use of pictures and videos to bring the concepts to life.
