Catalyzing Development through ICT

Adoption Harleen Kaur, Ewa Lechman, Adam Marszk, 2017-06-05 This book examines the role that Information and Communication Technologies (ICTs) play in growth and economic development promotion specifically for developing countries. It highlights multiple methodologies for quantifying the impact of ICTs. This includes quantitative and qualitative methods but also novel conclusive and informative methodological approaches for measuring ICTs influence on economic development. The book highlights trends, perspectives, and success stories for different developing countries. ICTs bring new business models, innovations, capital, labor, substitution, improved goods and services to developing markets. Because they can spread rapidly with little cost and require minimal skills for usage, ICTs create a solid background for social and economic gains. They enable significant reduction in information asymmetries which improves access to economic activities for a multitude of agents, fostering participation inter alia in labor market of disadvantaged societal groups. After almost two decades of rapid diffusion of ICT in the developing world, this book seeks to assess the real benefits and consequences of ICTs adoption in developing countries. The chapters use broad real world based evidence to provide a better understanding of the precise nature of new technologies and their impact on the country's economy and society. *Business Opportunities, Start-ups, and Digital Transformation in Africa* LIT Verlag, 2023-10-23 Volume 23 2022 2023 of the African Development Perspectives Yearbook focusses on the issues of digital entrepreneurship, digital start-ups, and digital business opportunities in Africa. It investigates links between digitalization and development of productive capacities. It deals with business opportunities created by the digital transformation. It discusses the role of universities in the digital transformation process. It also presents book reviews and book notes. Country case studies include Senegal, Ghana, Ivory Coast, and South Africa. *Operationalising e-Democracy through a System Engineering Approach in Mauritius and Australia* Soobhiraj Bungraz, 2020-01-07 This book describes how the Systems Engineering (SE) methodology can be used to harness technology and enhance democracy within any political system. Moreover, it provides a practical roadmap for countries and politicians who are willing to change their existing system of governance to one that allows the people to have a meaningful say. In this regard, the book compares and contrasts two countries, Mauritius and Australia, highlighting how SE and e-democracy can be implemented in different contexts. *Social Knowledge Management for Rural Empowerment* Somprakash Bandyopadhyay, Sneha Bhattacharyya, Jayanta Basak, 2020-08-31 This book develops and examines the concepts and strategies for rural empowerment through the formation of a community-driven social knowledge management (SKM) framework aided by social technology. The framework is aimed at mobilizing knowledge resources to bridge the rural-urban knowledge divide while securing rural empowerment using digital connections and social collaborations built on strategies of self-sustenance and self-development. With key empirical findings supplemented by relevant theoretical structures, case studies, illustrative figures, and a lucid style, the book combines social technologies and social development to derive a social knowledge management platform. It shows how the proposed SKM framework can enhance knowledge capabilities of rural actors by facilitating

connection among rural urban entities through formation of purposive virtual communities which allow social agents to create modify and share content collaboratively The volume brings forward diverse issues such as conceptual foundations bridging the rural urban knowledge and information divide issues of information and knowledge asymmetry a knowledge theoretic perspective of rural empowerment knowledge capability freedom of choice and wellbeing to provide a comprehensive outlook on building a knowledge society through digital empowerment This book will be useful to scholars and researchers of development studies rural sociology management studies IT IS knowledge management and ICT for development public policy sociology political economy and development economics It will benefit professionals and policymakers government and nongovernment bodies and international agencies involved with policy decisions related to application of technologies for rural development social workers and those in the development sector **Philippine**
