*The Law & Politics of Brexit: Volume IV* Federico Fabbrini, 2022-05-02 This book examines the law and politics of the Protocol on Ireland Northern Ireland attached to the Withdrawal Agreement which regulates the terms of Brexit The Protocol on Ireland Northern Ireland deals with the most complex issue which emerged during the withdrawal negotiations between the United Kingdom UK and the European Union EU namely how to avoid a hard border in the island of Ireland and preserve the peace process started in Northern Ireland with the 1998 Belfast Good Friday Agreement To this end the Protocol which was agreed in its final form in October 2019 establishes a bespoke solution notably by keeping Northern Ireland aligned to EU customs and internal market rules Nevertheless the operation of the Protocol which has formally entered into force in January 2021 has stirred political controversies in the Unionist community in Northern Ireland and caused diplomatic confrontation between the EU and the UK The purpose of this book is therefore to provide the first interdisciplinary overview of the Protocol shedding light on its context content and challenges This book which brings together contributions by leading legal scholars political scientists sociologists and trade experts from Northern Ireland Ireland Great Britain Europe and the United States provides a comprehensive and contextual assessment of the Protocol It examines its setting including constitutional trends in the UK and Ireland focuses on its substantive clauses dealing with human rights and cross border cooperation as well as on those related to trade and analyses its governance mechanisms including democratic consent and safeguards

*Continuity and Change* Patricia M. O'Connor, Fidelma McCorry, 2025-04-15 Bringing together a multidisciplinary team of authors this book relays the untold story of postwar migration between Ireland and Australia

Spanning the period 1945-2024 it explores the experiences of migrants from the Republic of Ireland and Northern Ireland and provides insights into the multiple reasons these migrants came to Australia factors which prompted permanency or return and the extent of continuity and change between recent arrivals and their historical predecessors Contemporary flows are examined through the lens of social economic policy and technological changes occurring at the time in Ireland Australia and globally Decades of economic boom and bust in Ireland including the growth and demise of the Celtic Tiger the impact of government investment in education in the Republic and the Troubles in Northern Ireland occurred alongside marked changes in Australia's immigration policy During this time an increased affordability of international travel and communication brought new dynamics to the tyranny of distance that characterised historical flows How contemporary migrants from Ireland navigated these changes in terms of identity and belonging homesickness and transnationalism are the key themes which are explored The role of Ireland's Government in relation to its migrant community in Australia and the impact of COVID 19 are also considered This book not only fills a gap in Ireland's diaspora research but also contributes to migration studies more broadly particularly the experiences of invisible immigrants **The Performing Century T.**

Background and History of Impeachment United States. Congress. House. Committee on the Judiciary. Subcommittee on the Constitution, 1998 *Insight Turkey 2018 - Winter 2018 (Vol. 20, No.1)* , Today the world system is in a transition and experiencing a deep international crisis The U S has begun to oppose the basic international institutions such as the United Nations and its subsidiary organs and specialized agencies even though most of these were established with American motivation The hegemon state the U S has been alienating most of its partners and even allies The U S governments have begun to focus on the national setting and to underestimate the international one to favor unilateral policies over multilateral ones The presidency of Donald Trump has expedited this process American rejection of providing global public goods such as international security and free trade has led to a systemic crisis The relative decline of American power coincides with the persistent rise of China Those who claim that the days of Pax Americana are numbered assert that the rise of China will determine the future of the world system China has begun to expand its influence worldwide For this purpose it has established alternative political and economic international institutions such as the Shanghai Cooperation Organization SCO and the Asian Infrastructure Investment Bank AIIB Furthermore China leads the establishment of some other international organizations as well BRICS is only one of these formations challenging the political hegemony of the West led by the U S One of the most promising Chinese projects is the One Belt One Road OBOR Project aspiring to connect the East China to the West the world markets It is expected that on its completion the OBOR Project will take China to the center of the world

economy and politics China has been the fastest growing economy in the world for the last thirty years Its share of the world trade has increased dramatically recording the highest share in world exports for several years China has been enjoying economic transactions with all major international actors with more than 200 partners in exports and imports However in terms of per capita income China still lags behind the advanced Western countries Furthermore according to the calculations made by the World Bank and IMF Chinese per capita income is still lower than the world average China recently began to invest in the political and military sphere in the non Western world It has military bases in its near abroad and in the African continent That is Chinese economic influence and technological leadership is supported by its political and military power In spite of the increase in Chinese military and political might it is careful not to challenge the U S and the West There are several reasons for this policy First of all China is aware of its vulnerabilities It suffers some economic and political inconsistencies and weaknesses For instance it has to fortify its regional dominance first in the South China Sea and achieve its longtime one China policy as a precondition for a possible global hegemony Second China wants to win the global rivalry without resorting to war with the current hegemon Therefore Chinese leaders refrain from opposing the American hegemony politically Even though it has introduced some international institutions the Chinese leadership does not propose a political and diplomatic alternative to the West It will take time for China to offer a full scale global leadership alternative to the world since the global hegemony requires not only economic and military power but also values and norms for cultural hegemony Lastly China is not ready to take the global responsibility since it brings high costs As long as the current American hegemony works in favor of China there is no need for China to change the course of its development In the light of these developments this issue of Insight Turkey focuses on some of the most important topics related to China s persistent rise in the international system More specifically this issue postulates on how to read and understand China s policies towards global powers i e the U S and Russia and regional powers i e India and Turkey Africa has once again returned to the attention of the global powers after being left for many years in the shadow of western politics In recent years Africa has become the center of China s public economic and military diplomacy As it may be expected China s investments in Africa are not totally welcomed by the U S Earl Conteh Morgan in his commentary focuses on the strategic rivalry between China and the U S in Africa Conteh Morgan argues that their rivalry has progressed from mild to intense with both powers increasing their activities on the continent and decreasing Africa s erstwhile marginalization Another rivalry that shapes China s foreign policies in the region is that with India Especially since the Doklam Plateau incident in mid 2017 the expectation of a possible tension between the two regional powers is ever present Taking this into consideration Bruno Ma es in his commentary ponders the economic and strategic rivalry between China and India along with a number of dimensions infrastructure border disputes sea power and trade
