Law, Religion, Constitution W. Cole Durham, Silvio Ferrari, Cristiana Cianitto, Donlu Thayer, 2016-04-29 What is the place assigned to religion in the constitutions of contemporary States What role is religion expected to perform in the fields that are the object of constitutional regulation Is separation of religion and politics a necessary precondition for democracy and the rule of law These questions are addressed in this book through an analysis of the constitutional texts that are in force in different parts of the world Constitutions are at the centre of almost all contemporary legal systems and provide the principles and values that inspire the action of the national law makers After a discussion of some topics that are central to the constitutional regulation of religion the book considers a number of national systems covering countries with a variety of religious and cultural backgrounds The final section of the book is devoted to the discussion of the constitutional regulation of some particularly controversial issues such as religious education the relation between freedom of speech and freedom of religion abortion and freedom of conscience

Separation of Powers in African Constitutionalism Charles M. Fombad, 2016-03-03 The new series Stellenbosch Handbooks in African Constitutional Law will engage with contemporary issues of constitutionalism in Africa filling a notable gap in African comparative constitutional law Separation of Powers in African Constitutionalism is the first in

the series examining one of the critical measures introduced by African constitutional designers in their attempts to entrench an ethos of constitutionalism on the continent Taking a critical look at the different ways in which attempts have been made to separate the different branches of government the Handbook examines the impact this is having on transparent and accountable governance Beginning with an overview of constitutionalism in Africa and the different influences on modern African constitutional developments it looks at the relationship between the legislature and the executive as well as the relationship between the judiciary and the political branches Despite differences in approaches between the different constitutional cultures that have influenced developments in Africa there remain common problems One of these problems is the constant friction in the relationship between the three branches and the resurgent threats of authoritarianism which clearly suggest that there remain serious problems in both constitutional design and implementation The book also studies the increasing role being played by independent constitutional institutions and how they complement the checks and balances associated with the traditional three branches of government

The Impact of the European Court of Justice on Neighbouring Countries Arie Reich, Hans-W. Micklitz, 2020-10-30 There is a considerable mismatch between theories on the influence of the EU outside its borders and concrete knowledge on whether and to what extent the suggested impact is of any practical relevance The aim of this book therefore is to help close that gap in the knowledge concerning the role and function of the Court of Justice of the European CJEU outside its own borders in selected countries Scholars from Armenia Azerbaijan Georgia Israel Jordan Russia Switzerland Tunisia Turkey Ukraine and the Eurasian Economic Union have researched and explored how their respective countries have been influenced by the CJEU This title looks at why along with how these decisions have been utilized All of this culminates in an effort to be able to rank the degree to which the CJEU is influencing non EU jurisdictions according to a common scale Looking across the selected countries this title analyses the research provided by the scholars This includes a brief description of the relationship and agreements between the EU and the country a concise history of the country s judiciary a full account of the extent to which the country s courts have cited CJEU judgements and an analysis of that extent and the impact they have had Other factors are explored as well such as countries who want to join the EU might aim for more legal harmonization between them and the EU These metrics are used to compare across the neighbourhood countries and draw conclusions about CJEU influence and impact outside of the EU This comprehensive edited collection is an in depth look at the actual impact of the CJEU in neighbourhood countries providing crucial information in an overlooked field of EU law

democracies Chapters deal not only with relatively well known South Asian countries such as India Bangladesh Pakistan and Sri Lanka but also with countries often ignored by scholars such as Bhutan Nepal Maldives and Afghanistan The contributions consider the design and functioning of an array of institutions and actors including political parties legislatures the political executive the bureaucracy courts fourth branch guarantor institutions such as electoral commissions the people and the military to examine their roles in strengthening or undermining constitutional democracy across South Asia Each chapter offers a contextual and jurisdictionally tethered account of the causes behind the erosion of constitutional democracy and some examine the resilience of constitutional institutions against democratic erosion
