Marine Conservation and International Law Sarah Louise Lothian, 2022-07-22 This book provides a blueprint for an International Legally Binding Instrument ILBI for the conservation and sustainable use of marine biodiversity beyond national jurisdiction BBNJ The development of an ILBI could signify a pivotal turning point in the law of the sea by addressing regulatory governance and institutional gaps and deficiencies in the existing international law framework for BBNJ This book analyses the essential components an ILBI will require to effectively conserve and sustainably use BBNJ focusing on marine genetic resources areabased management tools environmental impact assessments capacity building and marine technology transfer It investigates potential areas of compromise as the success of an ILBI will rely upon the support of a powerful bloc of maritime States principally the United States the United Kingdom Russia the Netherlands France and Japan The participation of major maritime powers will be critical as it is their nationals corporations and flag vessels that have the financial and technical wherewithal to undertake activities beyond national jurisdiction This bloc of States has historically been the strongest proponent of the Grotian doctrine of freedom of the seas as it aligns with their predominant interest to preserve navigational freedom for their merchant and military fleets Accordingly this book assesses the extent to which the Grotian doctrine continues to exert influence on the development of the law of the sea and the development of an ILBI Providing a comprehensive overview of this important development in international law this book will be of interest to students lecturers and academics of law of the sea international environmental law and biodiversity law
