Cornell International Law Journal, 2005 **Comparative Corporate Governance : A Chinese Perspective** Yuwa Wei, 2003-04-01 The analysis is notable for its insistence that for a corporate governance system to work the principles and practicalities of that system must be derived from customary cultural norms Experience shows that imported models although they may be enshrined in law lead to economic stagnation

unless actual practice is monitored and reformed and the laws change to reflect these necessary adjustments Thus the model proposed here begins with the Company Law of 1994 and proceeds to show how practical experience is already providing valuable data for the task of improving the law     State-owned Banks Catherine Chammartin,2010     Globalization and the State: Volume II Carlos M. Peláez,Carlos A. Peláez,2008-10-31 International economic and financial policy IEFPP involves the analysis of national government policy measures which are intended to influence external trade investment intellectual property rights IPR and migration 6 IEFPP can be seen as synonymous with the idea of globalization The power of the state to intervene in markets is a key determinant of the existence of globalization its speed and nature What an individual argues about globalization is ultimately an argument of the preference for a specific view on the intervention of the state in the economy This book focuses on IEFPP by systematically relating it to theories of the state as well as exploring in detail the role of international financial institutions and private institutions in globalization and the instruments used There is also discussion of international trade looking at the static gains from international trade and analyzing distortions and their remedies There are also important contributions to the debate on trade opening and how it can affect employment and wages This book represents an indispensable guide to the role of the state in globalization and IEFPP and is essential for all interested in the global economy theories of the state international trade and international finance     Current Law Index ,2007     Comparative Corporate Governance Andreas M.
