for human enhancement distinguishes between the instrumental and intrinsic value of enhancements argues that too much enhancement undermines human identity considers the possibility of cognitively enhanced scientists and argues against radical life extension Making the case for moderate enhancement Agar argues that many objections to enhancement are better understood as directed at the degree of enhancement rather than enhancement itself Moderate human enhancement meets the requirement of truly human enhancement By radically enhancing human cognitive capabilities by contrast we may inadvertently create beings post persons with moral status higher than that of persons If we create beings more entitled to benefits and protections against harms than persons Agar writes this will be bad news for the unenhanced Moderate human enhancement offers a more appealing vision of the future and of our relationship to technology

Humanity: Language, Partnership, Relationship, Wealth, Prosperity, and Truth: A Curriculum for Enhanced

Living Seth Grossman, 2019-10-11 In a time of divisiveness this book is about partnerships as a primary human capacity The book is a result of a lifelong quest to understand myself and others our shared humanity I have sat with studied and explored truth with a number of seekers teachers artists gurus businessfolk educators tradespeople persuaders mystics scientists and philosophers public servants goofballs and renegades And I have found that abundance wealth relationships and power are about discovering creating and sustaining the value within ourselves and the value within other people as a mutually inclusive form of living This book is a guide to conscious living that incorporates personal integrity partnership accountability gratitude creation in abundance and the experience of happiness This book is not about how to become rich how to be competitive how to control others or how to be a good person although all those things may happen or not It is about examining our human potential to access action to know ourselves and to increase the ability to be in service This begins and ends as a conversation of we rather than only me of all humanity of which we are a part and an expression of the role we choose to play and of the adventures we choose to go on We begin with the questions What if being human is a partnership What if more than is being human What is our humanity
