Entrepreneurship A South African Perspective 2nd Edition:

Higher Education, Community Engagement and Entrepreneurship in Southern Africa I. G. Govender, 2021-02-24 This volume explores the pressing issues of entrepreneurship education and development in Southern Africa. It discusses the various roles of higher education institutions in enhancing entrepreneurship in localised communities and provides a systematic solution for improving the Southern African economy by realising the importance of empowering the youth with entrepreneurial skills. In addition, successful development requires effective policies and contemporary approaches to both community engagement and entrepreneurship management. The book uses different Southern African case studies to discuss the various issues and innovations in entrepreneurship in the country. Handbook of Research on Nascent Entrepreneurship and Creating New Ventures Carrizo Moreira, António, Dantas, José Guilherme Leitão, 2020-10-09 Due to the 2008-2009 crisis, the United Nations 2030 agenda for sustainable development and the COVID-19 pandemic, the role of entrepreneurship has become more critical in most economies. Moreover, emerging protectionist policies are further encouraging the emergence of new entrepreneurial projects, particularly to replace goods and services traditionally provided by other countries. Understanding current challenges and best practices in nascent entrepreneurship is integral for the successful launching of new ventures to support the revitalization of economies and achieve sustainability. The Handbook of Research on Nascent Entrepreneurship and Creating New Ventures is a crucial reference source that covers the latest empirical research findings in the field of entrepreneurship and addresses the obstacles entrepreneurs face in these recent challenging times. The book embraces a pluralistic perspective from academicians currently navigating nascent entrepreneurship and key concepts for launching successful new ventures. Covering topics that include government support programs, spin-off companies, leadership, strategic entrepreneurship, and crowdfunding, this book is targeted towards entrepreneurs, professionals, academicians, researchers, and students. **Entrepreneurship, Training, Education and Job Creation** Magda Hewitt, 2010-08-01 The papers included in this book were taken from the proceedings of the University of Johannesburg Faculty of Management Department of Entrepreneurship 2010 Entrepreneurship Training, Education and Job Creation Conference. These papers address some of the issues in terms of entrepreneurship training, education, and job creation. Entrepreneurship in the BRICS Ndivhuho Tshikovi, Fulufhelo Netswera, Ravinder Rena, 2024-10-14 Entrepreneurship is a tool of innovation promotion that supports sound economic environments as it stimulates economic growth and development. The BRICS nations, i.e. Brazil, Russia, India, China, and South Africa, are a group of emerging countries comprising the highest developmental block of the emerging nations. It is imperative to assess the entrepreneurship policies, strategies, and promotional programmes and their implications for, among others, entrepreneurship funding, economic growth, and employment trends. The COVID-19 pandemic has impacted the entrepreneurship environment and equally steered state funding priorities away from entrepreneurship development support worldwide. This research book assesses the effect that

COVID 19 has had on government funding priority policy interventions and resultant implications on the entrepreneurship environment economic growth and employment with a focus on BRICS Readers will gain insight into what entrepreneurship looks like in the BRICS context and how it has been affected by COVID 19 indicating how the BRICS nations are likely to move forward to further strengthen entrepreneurship This edited volume will be of interest to researchers academics practitioners and advanced students in the fields of entrepreneurship innovation strategy international relations multilateralism and economic development Entrepreneurship Marketing Sonny Nwankwo,Ayantunji Gbadamosi,2020-02-26 Small and medium sized enterprises SMEs dominate the market in terms of sheer number of organisations yet scholarly resource materials to assist in honing skills and competencies have not kept pace This well renowned textbook guides students through the complexities of entrepreneurship from the unique perspective of marketing in SME contexts providing a clear grounding in the principles practices strategies challenges and opportunities faced by businesses today SMEs now need to step up to the terrain of mobile marketing and consumer generated marketing and utilise social media marketing tools Similarly the activities of various stakeholders in SME businesses like start up accelerators business incubators and crowdfunding have now gained more prominence in SME activities This second edition advances grounds covered in the earlier edition and has been fully updated to reflect this new dynamic business landscape Updates include A consideration of social media imperatives on SME marketing Discussion of forms of capital formation and deployment for marketing effectiveness including crowdfunding Updated international case studies drawn from diverse backgrounds Hands on practical explorations based on real life tasks to encourage deeper understanding This book is perfect for students studying SMEs Marketing and Enterprise at both advanced undergraduate and postgraduate levels as well as professionals looking to obtain the required knowledge to operate their businesses in this increasingly complex and turbulent marketing environment Entrepreneurship Gideon Nieman,Cecile Nieuwenhuizen,2019 Frontiers in Entrepreneurship Boris Urban,2010-07-23 Te series Perspectives in Entrepreneurship A Research Companion provides an authoritative overview of specialised themes in entrepreneurship Each of the four books presents the conceptual framework and foundations underlying a specialist field of scholarship in entrepreneurship Te series is inspired by the dearth of higher level texts available in South Africa failing to encapsulate the rigorous research evident in the growing field of entrepreneurship internationally Te content is driven by a judicious selection and interpretation of key knowledge set in context by introducing and delineating major topics previously not discussed in depth in traditional entrepreneurial texts A blend of theoretical and empirical evidence is presented that collectively demonstrates the convergence of thinking on a particular theme Identifying and evaluating the most seminal and impactful scholarly research on different subject areas where entrepreneurship is at the core serves to achieve this convergence By applying a theoretical lens to central issues about entrepreneurship rather than focusing on practical issues of how to the series has a conceptual outlook with specialist areas in detailed narrative Te book
