Environmental and Health Impact Assessment of Development Projects The World Health

Organization, 2012-11-12 This handbook for practitioners in environmental and public health environmental management toxicology and ecotoxicology has been prepared by an international group of experts from both developing and developed countries and covers a wide range of topics in both environmental impact assessment and environmental health impact assessment Environmental and Health Impact Assessment of Development Projects World Health Organization. Regional Office for Europe, University of Aberdeen. Centre for Environmental Management and Planning, 1992 This handbook for practitioners in environmental and public health environmental management toxicology and ecotoxicology has been prepared by an international group of experts from both developing and developed countries and covers a wide range of topics in both environmental impact assessment and environmental health impact assessment *Health Impact Assessment* Martin Birley, 2013-10-18 Health Impact Assessment HIA is primarily concerned with the future consequences of plans proposals and policies on the health of communities It is a rapidly growing complement to Environmental Impact Assessment increasingly mandated by national and international requirements Guidelines have been produced by many national and international organizations and it is being introduced in a number of undergraduate or postgraduate university curricula However there has been until now no broad based introductory text of international scope to the subject suitable for both these courses and for professional training The purpose of this book is to fill this gap and to introduce the subject of Health Impact Assessment using plain language in both general and specific contexts and with reference to both market and less developed economies As a result the reader should be able to describe what HIA can and cannot achieve identify the components of a successful HIA and participate in an assessment as a member of a team Examples are provided from a number of planning and development sectors including extractive industry water resource management and housing The reader whether student or professional need not be a health specialist although prior knowledge of some public or environmental health would be an advantage Health Impact Assessment John Kemm, Jayne Parry, Stephen Palmer, Stephen R. Palmer, 2004-04 This book gives a comprehensive overview of the concepts theory techniques and applications of Health Impact Assessment to aid all those preparing projects or carrying out assessments It draws on examples and thinking from many different disciplines and many parts of the world This is the first easily accessible book which reviews the whole field It is likely to become the standard reference for HIA and the first place that anyone seeking to learn about the subject will turn *Environmental Health* James A. Listorti, Fadi M. Doumani, 2001-01-01 Environmental health remains at the periphery of sustainable development because it is inadequately defined and institutionally fragmented This publication aims to provide ways of addressing this multisectoral problem It is in three parts The first looks at harmonising sectoral priorities and shows that environmental health can target at least as much disease as the health sector The second part provides environmental health

assessment guidelines The third part looks at the results of a pilot project to put theory into practice in Ghana
