*Environmental Biotechnology: Basic Concepts and Applications, 2/e* Indu Shekhar Thakur, 2011-01-06 Biotechnology impinges on everyone's lives. It is one of the major technologies of the twenty-first century with wide-ranging multidisciplinary activities ranging from small entities of life to the application and production of goods. Environmental biotechnology is a huge and fast-growing field with increasing relevance for a sustainable development through protection of the environment to production of biomaterials. It continues to revolutionize the understanding of basic life-sustaining processes in the environment, identification and exploitation of the molecules, and its use to provide clean technologies and to deal with environmental problems. This book provides an overview of basic processes of the environment, perturbations in the environment due to natural and human activities, and use of biotechnological principles for remediation for sustainable development of the environment. *Fundamentals of Environmental Biology* Meetu Gupta, 2018-01-16 *Fundamentals of Environmental Biology* has been conceived to bring different aspects of environmental biology under one head. The purpose of this book is to fill the gap between basic books of ecology or environmental science and advanced environmental biotechnology in an appropriate manner. Divided in two parts, the book contains fourteen chapters. The first part deals with the topics related with ecology and environmental sciences, and the second part deals with environmental biotechnology aspects. It will help the students of botany, zoology, biotechnology, and environmental sciences or engineering as environmental biology is a multidisciplinary subject and involves various issues like ecological issues, global environmental problems, socio-economic scenario, along with modern fields such as molecular ecology, etc. Although the book is primarily designed for undergraduate and postgraduate students, it also provides information in a precise way to the teachers, researchers, and also to the people.
