

SOLIDWORKS Enterprise PDM - Manually Upgrade SOLIDWORKS Toolbox

This article will guide you through the process of manually upgrading the SOLIDWORKS Toolbox that is managed by Enterprise PDM. This manual process of upgrading the toolbox is for SOLIDWORKS and SOLIDWORKS Enterprise PDM 2014.

If the toolbox was not upgraded during the time of the major release upgrade for both Enterprise PDM and SOLIDWORKS, the upgraded users will run into the following error message.

This message is essentially saying that the toolbox database file (swbrowser.mdb) is not upgraded to the version that it needs to be (17.00).

Note that this message will appear if the upgrade was a major release upgrade of SOLIDWORKS and Enterprise PDM but the toolbox was not upgraded. The toolbox does not need to be upgrade if you are only upgrading to a new service pack (i.e. SOLIDWORKS 2014 SP0 to SOLIDWORKS 2014 SP3).

Tip: Here is a way to find out the versioning scheme. SOLIDWORKS 2014 has a toolbox database file of version 17.XX. This means that the SOLIDWORKS 2015 database file will be of version 18.XX. SOLIDWORKS 2016 will be 19.XX and so on. Same is true going backwards; toolbox database version 16.XX is for SOLIDWORKS 2013.

Important: Avoid extra work if you can. If you still have an Enterprise PDM client machine that has not yet had SOLIDWORKS upgraded, it is recommended to follow the toolbox upgrade steps found in the Enterprise PDM Installation Guide.
