**The Variant Effect: BLOOD ANGEL** G. Wells Taylor, BACK IN THE DAY People didn't know that it was happening so it was totally out of control by the time authorities understood that something serious was going on. As a result the worst of it incubated in the shadows hidden behind closed doors and far from view where the true horror played out in isolation. Where no one could hear you scream. The Variant Effect was impossible to detect until you were already infected. There was no way to tell if it was near if it was cooking in you or if it had passed you by altogether. First responders were the first to document evidence of its existence the first to see it happening and often the first to feel it boiling in their blood. Stress set it off and fear fed it so it was a perfect fit for cops firemen and EMTs. But in the beginning all they could do was file incident reports and wonder. Here is a short story from early in the day.

**A Coral Pillow** G. Wells Taylor, 2021-12-24 ONE FATEFUL NIGHT a lonely lighthouse keeper climbs into a rowboat and sets off to visit a mainland tavern in search of company. When his boat capsizes on the rough sea he sinks into the cold abyss expecting death so he is surprised to awaken on shore in the morning light. He's still alive but he's no longer alone. Love legend and loss drive this dark fantasy.

Dracula's Gypsy servant Horvat has the special duty of preserving his master's body if the worst should ever happen and the worst has happened. Van Helsing's team of vampire hunters has decapitated the count and reduced him to dust and ashes. Horvat's instructions are simple: Dracula's remains must be stored in a special urn and bathed in blood while en route to South Africa where a mysterious ally will see to his resurrection. But fate steps in off the African coast and a shipwreck casts Horvat and his precious burden into the jungle setting of another literary classic.
