An Ecologist and Her Children
Wake to a Warming World

Amy Seidl

Foreword by Bill McKibben

"An eloquent celebration of commitment to family, community, and the ever-so-fragile natural world . . . Regardless of where you live, this may very well be one of the most important books you'll ever read."

—Howard Frank Mosher, author of *A Stranger in the Kingdom*

Early Spring An Ecologist And Her Children Wake To A Warming World:

Early Spring Amy Seidl, 2009 Offers both a personal and a research based testimonial of the problem of global warming as an ecologist her daughters and their neighbors observe the changing weather and landscape of their small New England town *The Oxford Handbook of Ecocriticism* Greg Garrard, 2014-07-03 The Oxford Handbook of Ecocriticism provides a broad survey of the longstanding relationship between literature and the environment The moment for such an offering is opportune in many respects multiple environmental crises are increasingly inescapable at both transnational and local levels the role of the humanities in addition to technology and politics is increasingly recognized as central for exploring and finding solutions and the subject of ecocriticism has reached a kind of critical mass both within its Anglo American heartlands and beyond From its origins in the study of American Nature Writing and British Romanticism ecocriticism has developed along numerous theoretical historical cultural and geographical axes the most contemporary and exciting of which will be represented in the Handbook The contributors include eminent founders of the field including Michael Branch and Richard Kerridge a number of key second wave ecocritics and the best up and coming scholars Topics covered include Renaissance anxieties about nature the challenges of representing climate change the racialization of the environment in the early 20th century language and the concept of biosemiotics and the possibilities for environmental humour [Peace Education](#), 3d ed. Ian M. Harris, Mary Lee Morrison, 2014-01-10 Now in its third edition Peace Education provides a comprehensive approach to educating for a just and sustainable future It begins with religious and historical trends that have molded our understanding of peace and then presents a variety of ways to practice peace education in schools and communities and explains how it can motivate students The teaching and practice of peace education provides a basis of valuable knowledge about resolving conflicts and transforming violence without the use of force Instructors considering this book for use in a course may request an examination copy here [A Centennial History of the Ecological Society of America](#) Frank N. Egerton, 2015-05-20 Celebrating its 100th anniversary in 2015 the Ecological Society of America ESA is the largest professional society devoted to the science of ecology A Centennial History of the Ecological Society of America tells the story of ESA's humble beginnings growing from approximately 100 founding members and a modest publication of a few pages to a m [Finding Higher Ground](#) Amy Seidl, 2011-06-07 While much of the global warming conversation rightly focuses on reducing our carbon footprint the reality is that even if we were to immediately cease emissions we would still face climate change into the next millennium In Finding Higher Ground Amy Seidl takes the uniquely positive yet realistic position that humans and animals can adapt and persist despite these changes Drawing on an emerging body of scientific research Seidl brings us stories of adaptation from the natural world and from human communities She offers examples of how plants insects birds and mammals are already adapting both behaviorally and genetically While some species will be unable to adapt to new conditions quickly enough to survive Seidl argues that those that do can show us how to increase our

own capacity for resilience if we work to change our collective behavior In looking at climate change as an opportunity to establish new cultural norms Seidl inspires readers to move beyond loss and offers a refreshing call to evolve *Library Journal* ,2008 *The Writers Directory* ,2013 **The New York Times Index** ,2007 **Entdeckte Engeländische Verrätherey** ,1679 Facing a Warming World Melissa McDaniel,2020 Describes climate change and its effects on society A Warmer World: From Polar Bears to Butterflies, How Climate Change Affects Wildlife Caroline Arnold,2012-02 Describes how climate change has affected ecosystems around the world and how animals within these ecosystems have adapted offering young readers an informative and thought provoking look at how animals have had to adapt or face extinction **The Earth Experiment** Hwee Goh,David Liew,2023-08 A look into the history of global warming and the domino effect down to minute organisms With every rise in temperature what happens This book does not seek to tell young readers what they need to do but to tell stories such that they will take on this knowledge as their own and their own impetus to make change **I Wake to a Warming World Spring** Susan Angebrannndt,2012 What Is Global Warming? Richard D. Covey,Diane H. Pappas,2009 Zak the Yak and the Kid Guardians teach children about global warming
