INTRODUCTION TO EZT+

What is EZT+?

EZT+ is an information retrieval and data management system. It provides the NEW USER the tools to produce comprehensive reports. The experienced programmer is given the tools to create more complex reports.

EZT+ is an ENGLISH style language somewhat similar to COBOL.

Processing in an EZT+ environment is in a 'straight-line' code from the beginning to the end of the program logic.

EZT+ is intended for the quick and basic report. There are features of the package that allow the programmer to customize their logic to easily process control breaks, accumulate totals, perform special functions AFTER lines have been printed and so on. These features and many more will be covered in this manual.
