Handbook of Biocide and Preservative Use H.W. Rossmore,2012-12-06 My professional interest in antimicrobial agents and contamination control goes back 50 years to my tour as a microbiologist in a field hospital in Europe during World War II With no experience and relying solely on a military handbook I prepared thermometer trays with jars of blue bichloride of mercury and pink isopropyl alcohol A preliminary typhoid diagnosis of one of our cooks resulted in the need for lab testing His stool specimen and its subsequent disposal was my problem My handbook said bum it So burn it T did in a five gallon can with gasoline Flames shot up almost six feet and my next mistake was to extinguish them with carbon tetrachloride This resulted in the production of lethal phosgene gas The hospital had a near disaster I could say that at that moment I vowed to write a how to book so that such stupidities could be avoided Nevertheless when I was offered the opportunity to edit this book I thought back on the need for a real practical treatment of my subject This book then is a practical handbook for technical service personnel and scientists who are not necessarily specialists in microbiology It provides information on suitable antimicrobial agents appropriate to their particular problem solving needs and information on the microbial groups contributing to the specific problem their ecologies and strategies for controlling their access to the area or material of interest

Handbook of Disinfectants and Antiseptics Joseph M. Ascenzi,1995-09-05 This work details current medical uses of antiseptics and disinfectants particularly in the control of hospital acquired infections It presents methods for evaluating products to obtain regulatory approval and examines chemical physical and microbiological properties as well as the toxicology of the most widely used commercial chemicals Formulations that have broad applications for both medical equipment disinfection and antisepsis are also discussed

Microbicides in Coatings Frank Sauer,2017

Disinfectants and sanitizing agents United States. Environmental Protection Agency. Hazardous Materials Advisory Committee,1972
