Disability Studies Reader 4th Edition Study Guide:

Critical Approaches to Teaching the High School Novel Crag Hill, Victor Malo-Juvera, 2018-10-25 This edited collection will turn a critical spotlight on the set of texts that has constituted the high school canon of literature for decades. By employing a set of fresh vibrant critical lenses such as youth studies and disabilities studies that are often unfamiliar to advanced students and scholars of secondary English, this book provides divergent approaches to traditional readings and pedagogical practices surrounding these familiar works. By introducing and applying these interpretive frames to the field of secondary English education, this book demonstrates that there is more to say about these texts, ways to productively problematize them, and to reconfigure how they may be read and used in the classroom.

Documentary and Disability Catalin Brylla, Helen Hughes, 2017-09-18 This edited collection of contributions from media scholars, film practitioners, and film historians connects the vibrant fields of documentary and disability studies. Documentary film has not only played an historical role in the social construction of disability but continues to be a strong force for expression, inclusion, and activism. Offering essays on the interpretation and conception of a wide variety of documentary formats, *Documentary and Disability* reveals a rich set of resources on subjects as diverse as Thomas Quasthoff's opera performances, Tourette syndrome in the developing world, queer approaches to sexual functionality, Channel 4 disability sports broadcasting, the political meaning of cochlear implant activation, and Christoph Schlingensiefel's celebrated *Freakstars 3000*.

Ethics in Archaeological Practice Sarah Kiehl Costello, Sarah Lepinski, 2024-12-31 *Ethics in Archaeological Practice* explores urgent topics and issues in archaeology as currently practiced in the classroom, the field, the museum, and the public sphere. While addressed primarily to archaeologists working in western Asia, the eastern Mediterranean, and North Africa, the volume raises contemporary ethical questions around race, gender, disability, climate change, and cultural heritage that are pressing and relevant to archaeology students and professionals worldwide. The fifteen contributors offer fundamental case studies and practical guidance for best practices and models of high standards of ethical practice in professional conduct. Together, they offer new approaches to advocacy and the responsible stewardship of heritage sites, collections, and the environment. These compelling and generative discussions make the case for a 21st-century archaeology that is proactive and engaged with discourses addressing equity, social justice, anti-colonialism, and climate change.

Mental Health and Quality of Life of Adolescents with Physical, Intellectual, and Developmental Disabilities Zenon Gajdzica, Stanisława Byra, Anna Kołodziej-Zaleska, Katarzyna Rutkowska, Daniela Dzienniak-Pulina, 2023-08-18 This timely volume addresses issues related to the mental health and health-related quality of life of adolescents through a study with three groups: those with physical, intellectual, and other developmental disabilities; specifically, fetal alcohol spectrum disorder (FASD). Investigating the physical, cognitive, and social-emotional dimension of adolescents' quality of life, the chapters explore the meaning of personal and social resources of adolescents with disability and their parents in the context of the Polish system of support for families with disabled children.
