reflections on life being and existence      **Learning from the Future** Mary Hykel Hunt,2011-08-26 Learning from the future A neat eye catching turn of phrase that A good title for a book no doubt designed by some marketing sort to grab your attention because of course it s a statement of the impossible You can t learn from the future because it hasn t happened yet Or can you Mary Hykel Hunt functioning intuitive and researcher in the field of human consciousness reveals that it s entirely possible to access your future AND that it s based on good demonstrable science Yes it ll require some considerable shift in your conventional thinking because reality is not as we see it as science is increasingly and convincingly revealing

**Ethical Violence** Carlo Bordini,2023-10-16 Human civilization is founded on ethical principles norms of behaviour that have accumulated over time Perhaps the oldest of ethical principles is the rejection of violence which includes the respect for life and for the physical and psychological integrity of others But in some circumstances violence itself can be regarded as ethical for example when it is used by states claiming to act in self defence In these circumstances the need to defend oneself against an enemy can transform war from an unacceptable act into a necessary socially shared and morally sanctioned choice And it is when violence becomes ethical that we must begin to fear for our future In the wake of the pandemic we are witnessing the growing prevalence of aggression and emotionality in social and political life We find ourselves living in an increasingly impatient and insecure society which is sceptical of scientific thought and which takes refuge in the irrational The decline of rationality and the growing prevalence of violence are increasingly common features of a society that has lost touch with the great Enlightenment narrative We need argues Bordini to rediscover the rationality we have lost and recuperate the positive side of technology      **John Williamson Nevin** Linden J. DeBie,2023-09-21 John Williamson Nevin s

life has never been given the full attention that it deserves That may be due in part to the controversial nature of his thinking Yet in many respects his enormous contribution to American religious history is acknowledged by those who have read him He stood out as the great advocate of evangelical catholicism and his call for a thorough examination of the place of the church in nineteenth century theology was revolutionary It was Nevin who first saw the threat to the church in the erosion of faith in the church as a divine institution sacramentally entrusted by God with the reclamation of the whole world an erosion that occurred well before the Civil War in the hypersubjectivity of Protestant America      **Artificial General Intelligence**

**(AGI) and the Image of God** Peter J. Bellini,2023-09-19 Can artificial intelligence AI attain human level consciousness And if so should the church minister salvation to AI Through engaging philosophy of mind AI research the cognitive sciences neuroscience and theological anthropology Dr Bellini attempts to answer these questions The hypothesis is if the hard problem of consciousness can be solved and if human consciousness is replicable in AI then attaining artificial general conscious intelligence AGCI is possible and perhaps needs to be evangelized or disciplined as some claim On the contrary if the hard problem of consciousness cannot be solved and human consciousness is not replicable in AI then AGCI is not possible and it does not need to be evangelized And in either case how can the church begin a theological conversation with AI with

its potential to match and exceed human intelligence and performance A theological position on consciousness and the image of God is proposed demonstrating the uniqueness of human consciousness in contrast with AI and artificial consciousness A thorough exposition of the image of God is offered to serve as a cornerstone for any future conversation on a theological perspective of machines AI     **Books in Print** ,1994     Paperbound Books in Print ,1992     *American Book Publishing Record* ,2006     *The Cumulative Book Index* ,1992 A world list of books in the English language     Subject Guide to Books in Print ,2001     *Proceedings and Addresses of the American Philosophical Association* American Philosophical Association,1991 List of members in v 1     *Paperbound Books in Print* 1995 Reed Reference Publishing,Reference Reed,1995-12     *Sociology of Rationality* Soumyajit Patra,Tattwamasi Paltasingh,2024-11-15 This book is a socio historical analysis of rationalism as a world view that guides many of our actions in concrete everyday life and as a philosophy that guides our epistemological understanding of the reality around us It explores the multifaceted manifestations of the idea in the Enlightenment philosophy modern sociological theorising and post structural standpoints The volume also critiques rationality from feminist subaltern and postcolonial perspectives Finally it delves into the multi layered sociological significances of rationalisation of different domains of life Transdisciplinary in scope and with essays by foremost scholars in the field this volume will be a major intervention across the humanities and the social sciences It will be of interest to students and researchers in sociology anthropology history philosophy gender studies political science cultural anthropology education and religious studies     **Collected Essays on Philosophy and on Judaism** Marvin Fox,2003     *Southwest Philosophical Studies* ,1994     *Spinoza's Metaphysics and Its Place in Early Modern Philosophy* Michelle Adrienne Elliott,2003
