Dinosaurs And A Dirigible:

Dinosaurs & A Dirigible David Drake, 2014-08-16 Henry Vickers's job is to keep clients safe from the dinosaurs they're hunting. That's the easy part. The hard part is to keep the clients safe from themselves and each other. Men with enough money to go into the past to hunt the largest land animals of all time are powerful and self-willed. Some make an effort to act like decent human beings but more are selfish, stupid, sadistic, or all three together. The few women are likely to be worse. Vickers doesn't expect rich people to understand the dangers of where they are and what they're doing; he doesn't expect them to be competent with the powerful rifles they carry and he particularly doesn't expect them to be reasonable. He treats his clients' behavior as he does the rain and the baking heat: the cost of having a life he loves and which he couldn't afford in any other way. But no matter how detached Vickers tries to be, eventually there are moral questions that he can't ignore. And when Henry Vickers starts to behave like a human being instead of a hunting guide, things get really dangerous. And in a complete change of pace, *Travellers*: An airship is crossing the United States in 1897 in search of the weird and the wonderful. The two teenagers aboard know that the airship's captain is a great scientist and inventor but they don't know how much more he is also. All five of David Drake's time travel stories collected for the first time. At the publisher's request, this title is sold without DRM (Digital Rights Management).

Dirigibles and Dinosaurs: Player Handbook Erik Spohn, 2016-05-11 A handbook for players of *Dirigibles*. **Dinosaurs Encyclopedia of Film Themes, Settings and Series** Richard B. Armstrong, Mary Willems Armstrong, 2015-07-11 The first edition was called the most valuable film reference in several years by *Library Journal*. The new edition, published in hardcover in 2001, includes more than 670 entries. The current work is a paperback reprint of that edition. Each entry contains a mini-essay that defines the topic followed by a chronological list of representative films. From the Abominable Snowman to Zorro, this encyclopedia provides film scholars and fans with an easy-to-use reference for researching film themes or tracking down obscure movies on subjects such as suspended animation, viral epidemics, robots, submarines, reincarnation, ventriloquists, and the Olympics. Excellent, said *Cult Movies*. The volume also contains an extensive list of film characters and series including B-movie detectives, Western heroes, made-for-television film series, and foreign film heroes and villains. *Science Dictionary* Seymour Simon, 2012 More than two thousand entries in subjects from astronomy to zoology are accompanied by tables and charts as well as biographies of eighty-five scientists.

Dinomania Ulrich Merkl, 2015-11-25 Winsor McCay, the creator of *Little Nemo in Slumberland*, is internationally renowned as a pioneer in comics and animation. But author Ulrich Merkl's dedicated sleuthing has unearthed a never-published strip by McCay that was lost following the artist's untimely death. Titled simply *Dino*, it opens a surprising new window into McCay's life and work and showcases his exquisitely beautiful and delicate delineations, exactly reproduced from the original art. Merkl explores the influences McCay brought to the strip, including McCay's own *Gertie the Dinosaur* animated shorts, the animation in 1933's *King Kong*, and the growth of New York City from the Holland Tunnel to the Empire State Building and
