Diplomatic Counterinsurgency Lessons From Bosnia And Herzegovina:

Diplomatic Counterinsurgency Philippe Leroux-Martin, 2014 This book provides an eyewitness account of a key political crisis triggered by the international community in Bosnia and Herzegovina in 2007

Peace Figuration after International Intervention Gëzim Visoka, 2016-07-01 This book examines the adverse impacts of liberal peacebuilding in conflict affected societies It introduces peace figuration as a new analytical framework for studying the intentionality performativity and consequences of liberal peacebuilding The work challenges current theories and views and searches for alternative non conflicted research avenues that are suitable for understanding how peacebuilding intentions are made how different events shape peace outcomes and what are the consequences of peacebuilding interventions Drawing on detailed case studies of peacebuilding in Bosnia and Herzegovina Kosovo and Timor Leste the book argues that attempts to build peace often fail to achieve the intended outcomes A figurational view of peacebuilding interventions shows that post conflict societies experience multiple episodes of success and failure in an unpredictable trajectory This book develops a relational sociology of peacebuilding impact which is crucial for overcoming static measurement of peacebuilding successes or failures It shows that international interventions can shape peace but importantly not always in the shape they intended This book will be of much interest to students of statebuilding peacebuilding war and conflict studies security studies and IR

The Rise and Fall of Peacebuilding in the Balkans Roberto Belloni, 2019-05-06 This book examines the evolution of liberal peacebuilding in the Balkans since the mid 1990s After more than two decades of peacebuilding intervention widespread popular disappointment by local communities is increasingly visible Since the early 2010s difficult conditions have spurred a wave of protest throughout the region Citizens have variously denounced the political system political elites corruption and mismanagement Rather than re evaluating their strategy in light of mounting local discontent international peacebuilding officials have increasingly adopted cynical calculations about stability This book explains this evolution from the optimism of the mid 1990s to the current state through the analysis of three main phases moving from the initial rise to a later condition of stalemate and then fall of peacebuilding

The Urban Transformation of Sarajevo Jordi Martín-Díaz, 2021-08-10 Following the signing of the peace agreement and the end of three and a half years of siege Sarajevo simultaneously experienced a double transition from war to peace and from socialism to capitalism that was marked by an increasing international intervention This book presents a study of the urban transformation of Sarajevo during the post war period and considers both the role and the impact of the international community in its spatial and ethnic configuration Part I focuses on the period of maximum international involvement developed at local level from December 1995 until 2003 and comprises chapters on the ethno territorial division of the city the reconstruction of its ethnic diversity and the liberal transition fostered and imposed internationally Part II deals with the impact of these policies on the current spatial functional and ethnic configuration in the area of Sarajevo

Failed Peacemaking Sandra Pogodda, Oliver P. Richmond, Gëzim

Visoka,2023-07-10 This book investigates why peace and reform processes across the world have recently been stagnating or have become blocked They have failed to maintain security rights development and justice in the liberal international order The book identifies the related rise of counter peace processes at the heart of failed peacemaking efforts and explores the implications for an emerging multi polar order where local and international tools for peace and reform appear to be ineffective Across a range of recent cases from Cambodia the Balkans the Sahel region DRC Colombia Afghanistan and many others such dynamics are becoming clearer In particular small scale blocking tactics across different peace processes have been evolving into larger political strategies which are then disseminated within revisionist and revanchist international networks Ultimately this phenomenon has undermined liberal international order Spoilers and tactical blockages to peace have connected across local national regional and international scales highlighting ideological divisions Drawing on counter revolutionary theory the concept of counter peace is used as a tool to critically interrogate a systemic array of blockages to peace Distinct counter peace patterns are now entangled in peace and reform processes including the stalemate pattern the limited counter peace and the unmitigated counter peace patterns Across cases once tactical blockages begin to form these patterns they become systemic and ultimately enable conflict escalation Consequently the intimate entanglement of the existing international peace architecture with counter peace processes points to ideological divisions in international order as well as the growing gulf between diminished practices of peace and reform with critical scholarship on peace justice and sustainability

Shaping Peace in Kosovo Gëzim Visoka, 2017-04-05 This book explores the prospects and limits of international intervention in building peace and creating a new state in an ethnically divided society and fragmented international order. The book offers a critical account of the international missions in Kosovo and traces the effectiveness of fluid forms of interventionism. It also explores the co-optation of peace by ethno-nationalist groups and explores how their contradictory perception of peace produced an ungovernable peace which has been manifested with intractable ethnic antagonisms, state capture and ignorance of the root causes, drivers and consequences of the conflict. Under these conditions, prospects for emancipatory peace have not come from external actors, ethno-nationalist elite and critical resistance movements but from local and everyday acts of peace formation and agnostic forms for reconciliation. The book proposes an emancipatory agenda for peace in Kosovo embedded on post-ethnic politics and joint commitments to peace: a comprehensive agenda for reconciliation, people-centred security and peace enabling external assistance.

The SAGE Encyclopedia of War: Social Science Perspectives Paul Joseph, 2016-10-11 Traditional explorations of war look through the lens of history and military science, focusing on big events, big battles and big generals. Historical Abstracts Eric H. Boehm, 2000 *Global Strategic Assessment 2009* Patrick M. Cronin, 2009 Offers a conceptual pathway for U.S. policymakers to begin recalibrating America's security role to reverse what has appeared to be a widening gap between U.S. ends and means now and in the future. Provides an overview of eight broad trends shaping the international security environment, a global analysis of the world's seven regions to consider important developments in their distinctive neighborhoods and an examination of prospective U.S. contributions, military capabilities and force structure, national security organization, alliances and partnerships and strategies.

Bosnia and Herzegovina's Foreign Policy Since Independence Jasmin Hasić, Dženeta Karabegović, 2019-03-06 This book is the first to provide a comprehensive and systematic analysis of the foreign policy of Bosnia and Herzegovina, a post-conflict country with an active agency in international affairs. Bridging academic and policy debates, the book summarizes and further

examines the first twenty five years of BiH's foreign policy following the country's independence from Yugoslavia in 1992. Topics covered include conflict and post conflict periods, Euro Atlantic integration, political affairs on both local and regional levels, integration with a variety of international organizations and actors, neighboring states, bilateral relations with relevant other states including the United States, Russia, selected EU countries and Turkey as well as BiH's diaspora. The book highlights that despite their apparent weakness, post conflict states have agency to carry out foreign policy goals and engage with the international sphere including in geopolitics and thus provides a novel insight into weak states and their role in international politics. **Economics in Peacemaking** Dragoljub Stojanov, Portland Trust (London, England), 2009

Ten years on from the signing of the Dayton Peace Agreement in November 1995, the legacy of the Bosnian war still shapes every aspect of the political, social and economic environment of the tiny state. This state of affairs is highlighted by the fact that Bosnia is still under international control, with the Office of the International High Representative regularly using its powers to dismiss elected presidents, prime ministers and MPs and to impose legislation over the resistance of elected legislatures at national, regional and local level. What has changed in the ten years since Dayton? Is international regulation helping to establish a sustainable peace in Bosnia? What lessons can be learned for nation building in Bosnia? This volume was previously published as a special issue of the leading journal *International Peacekeeping*. [Lessons from Bosnia](#) DoD Command and Control Research Program, 2012-01-16. Frozen Justice: Lessons from Bosnia and Herzegovina's Failed Transitional Justice Strategy Jared O. Bell,2018-11-10 In May 1993 the United Nations Security Council founded the International Criminal Tribunal for the former Yugoslavia ICTY Based in the Hague Netherlands the ICTY was formed with the objective of prosecuting those who had committed war crimes crimes against humanity and genocide in Bosnia and Herzegovina and elsewhere in the former Yugoslavia during the early to mid 90s During its mandate 1993 2017 the tribunal heard many cases and tried numerous perpetrators from those who carried out the killings to those who orchestrated and ordered them In spite of its accomplishments the ICTY is considered to be highly controversial It is debated if the ICTY did enough to foster healing and reconciliation in many of the conflict torn societies Many scholars argue that the tribunal operated adequately within their mandate and sought to promote justice and reconciliation however those who lived through the brutal wars would argue that there has simply been no justice Importantly Bosnia and Herzegovina still remains a country divided by issues of post conflict justice among other things In 2010 a government led strategic plan emerged that was intended to deal with the unfinished business of justice and promote reconciliation throughout the country However it failed to do this and there is currently no political will or momentum to revive it But was this strategy doomed to failure from the beginning In the form of a quantitative study this book examines the possibility of reconciliation being achieved in Bosnia and Herzegovina through the methods fostered by the strategy Focusing on three major cities Sarajevo Mostar and Banja Luka Dr Jared Bell surveyed nearly 500 people in order to shed light on the subject of the national transitional justice strategy and reconciliation from the perspective of the everyday populace

Lessons from Bosnia Larry Wentz,2002 This book tells the story of the challenges faced and innovative actions taken by NATO and U S personnel to ensure that IFOR and Operation Joint Endeavor were military successes A coherent C4ISR lessons learned story has been pieced together from firsthand experiences interviews of key personnel focused research and analysis of lessons learned reports provided to the National Defense University team The book provides numerous examples that support the observation that DoDs vision is working for the Bosnia operation Anthony M Valletta Acting Assistant Secretary of Defense
