# Dot Dot Dot Infinity Plus God Equals Folly

**Peter Boghossian, James Lindsay**

## **Dot Dot Dot Infinity Plus God Equals Folly:**

**Dot, Dot, Dot** James A. Lindsay, 2013-08-05 Infinity and God have been close bedfellows over the recent millennia of human thought But this is James A Lindsay s point These two ideas are thought mere concepts Lindsay shows in a concise and readable manner that infinity is an abstraction and shows that in all likelihood so is God particularly if he has infinite properties This book is about math It is about God It is about stressing the importance of not confusing these two ideas with reality Never the twain shall meet A short and engaging read on the meeting of two huge ideas infinity and God that leaves us seeing both as abstract ideas that may have nothing to do with reality Honest and accessible Dot Dot Dot is a great little book to stretch your thinking Peter Boghossian author of A Manual for Creating Atheists Timely important and very readable this book pulls the rug from under theists feet Jonathan MS Pearce The Little Book of Unholy Questions Read this to avoid making any more cardinal sins and learn how much math is an amazing human endeavor Aaron Adair PhD The Star of Bethlehem A Skeptical View      Philosophy's Future Russell Blackford, Damien Broderick, 2017-04-25 Philosophy s Future The Problem of Philosophical Progress diagnoses the state of philosophy as an academic discipline and calls it to account inviting further reflection and dialogue on its cultural value and capacity for future evolution Offers the most up to date treatment of the intellectual and cultural value of contemporary philosophy from a wide range of perspectives Features contributions from distinguished philosophers such as Frank Jackson Karen Green Timothy Williamson Jessica Wilson and many others Explores the ways philosophical investigations of logic world mind and moral responsibility continue to shape the empirical and theoretical sciences Considers the role of contemporary philosophy in political issues such as women s rights the discrimination of minorities and public health      **Unapologetic** John W. Loftus, 2016-11-01 Just as intelligent design is not a legitimate branch of biology in public educational institutions nor should the philosophy of religion be a legitimate branch of philosophy So argues acclaimed author John W Loftus in this forceful takedown of the very discipline in which he was trained In his call for ending the philosophy of religion he argues that as it is presently being practiced the main reason the discipline exists is to serve the faith claims of Christianity Most of philosophy of religion has become little more than an effort to defend and rationalize preexisting Christian beliefs If subjects such as biology chemistry physics and geology are all taught without reference to faith based supernatural forces as explanations faith based teachings should not be acceptable in this discipline either While the book offers a fascinating study of the fallacies and flaws on which one whole field of study rests it speaks to something much larger in the ongoing culture wars By highlighting the stark differences between faith based reasoning and evidence based reasoning Loftus presents vital arguments and lessons about the importance of critical thinking not only in all aspects of study but also in life His conclusions and recommendations thus resonate far beyond the ivory towers and ivy covered walls of academic institutions      *Life in Light of Death* James Lindsay, 2016-11-15 Life is short and it can be sweet Contemplating death is looking into a mirror that allows us to see these

simple facts clearly as if for the first time We have every reason to believe that we have but one life to live and no good reasons to believe otherwise and death marks the termination of each life Examining this reality opens doors to understanding ourselves each other connection love and life itself in an entirely new way Life in Light of Death offers a short exploration of the sweetness and opportunity available to those who understand and embrace this fact By looking at life as reflected by death we can see what really matters and how best to live      **Life in Light of Death** James A

Lindsay,2016-10-01 Life is short and it can be sweet Contemplating death is looking into a mirror that allows us to see these simple facts clearly as if for the first time We have every reason to believe that we have but one life to live and no good reasons to believe otherwise and death marks the termination of each life Examining this reality opens doors to understanding ourselves each other connection love and life itself in an entirely new way Life in Light of Death offers a short exploration of the sweetness and opportunity available to those who understand and embrace this fact By looking at life as reflected by death we can see what really matters and how best to live      **How to Have Impossible Conversations** Peter Boghossian,James Lindsay,2019-09-17 From politics and religion to workplace negotiations ace the high stakes conversations in your life with this indispensable guide from a persuasion expert In our current political climate it seems impossible to have a reasonable conversation with anyone who has a different opinion Whether you re online in a classroom an office a town hall or just hoping to get through a family dinner with a stubborn relative dialogue shuts down when perspectives clash Heated debates often lead to insults and shaming blocking any possibility of productive discourse Everyone seems to be on a hair trigger In How to Have Impossible Conversations Peter Boghossian and James Lindsay guide you through the straightforward practical conversational techniques necessary for every successful conversation whether the issue is climate change religious faith gender identity race poverty immigration or gun control Boghossian and Lindsay teach the subtle art of instilling doubts and opening minds They cover everything from learning the fundamentals for good conversations to achieving expert level techniques to deal with hardliners and extremists This book is the manual everyone needs to foster a climate of civility connection and empathy This is a self help book on how to argue effectively conciliate and gently persuade The authors admit to getting it wrong in their own past conversations One by one I recognize the same mistakes in me The world would be a better place if everyone read this book Richard Dawkins author of Science in the Soul and Outgrowing God      *Everybody Is Wrong About God* James A. Lindsay,Peter Boghossian,2015-12-01 A call to action to address people s psychological and social motives for a belief in God rather than debate the existence of God With every argument for theism long since discredited the result is that atheism has become little more than the noises reasonable people make in the presence of unjustified religious beliefs Thus engaging in interminable debate with religious believers about the existence of God has become exactly the wrong way for nonbelievers to try to deal with misguided and often dangerous belief in a higher power The key author James Lindsay argues is to stop that particular conversation He demonstrates that whenever people say they believe in God they

are really telling us that they have certain psychological and social needs that they do not know how to meet Lindsay then provides more productive avenues of discussion and action Once nonbelievers understand this simple point and drop the very label of atheist will they be able to change the way we all think about talk about and act upon the troublesome notion called God

*Filling the Void* Jonathan Ms Pearce, 2016-02-24 There is often thought by theists to be a void in humanist and atheist lives a god shaped hole For many atheists though that void is amply filled with meaning and purpose nobly and morally built up out of philosophy and living a fulfilled life This volume helps to document that through a wide variety of verse form and content with poems from an interesting array of writers detailing a range of emotions and thoughts There has been a void a lacking of collections of atheistic artistry and this selection hopes to remedy such a situation and in doing so seeks to show how humanists can and do weave lives that are rich tapestries of morality purpose awe and wonder Jonathan Pearce has done us a great service in producing this anthology *Filling the Void* is eclectic witty arresting philosophical and fun It charts a course through the emotional landscape of atheism and fills a niche in humanist literature that's been vacant for far too long David Warden Chair of Dorset Humanists Read this extraordinary book feel the wonder and take delight in the fact that we are that singular facet of the universe able to contemplate itself through science and art and to create poetry in the intersection of the two David Fitzgerald author of *Nailed and The Complete Heretic's Guide to Western Religion* series *Divinity* Pearce'd by worded structure Wandering from blinding sands to southern birds Poems for our secular times This anthology of freethinking poems ranging from poignant to humorous from ancient voices to modern songs encapsulates the thoughts of many secular folks See what a few meters of these works may do for you and inspire further reflection in a new way Dr Aaron Adair author of *The Star of Bethlehem A Skeptical View* In *Filling the Void* Jonathan MS Pearce has put together an anthology of valuable literature for humanity Verse speaks to us in ways that prose cannot and here for those lacking belief in God we find people given an often silent voice Sometimes wry sometimes struggling sometimes defiant poignant or beautiful the poetry in *Filling the Void* expresses the contemporary nonbeliever's experience in truly human terms James A Lindsay author of *Dot Dot Dot Infinity Plus God Equals Folly* and *Everybody Is Wrong About God* Many books about atheism focus on science or challenging religious dogma so it can be difficult to find literature on how nonbelievers find meaning in their lives *Filling the Void* shares the perspectives of a diverse group of atheists who express how they grapple with reality and their emotions Jonathan Pearce has provided a necessary addition to atheist and humanist literature with this beautiful anthology Matthew Facciani sociologist and activist blogger at *According to Matthew* This collection vibrantly showcases the fact that having a naturalistic scientific worldview in no way means one can't experience the grandeur and majesty of life and the universe or have a wickedly keen sense of humor about that whole god idea *Filling the Void* should do just that for most readers plug a hole in their book collection nicely showcasing the overlap of humanism and literature of science and verse of religious criticism and rhyming constants Dr Caleb Lack Director of the Secular Therapist
