Leading Cases and Statutes on the Law of Evidence (Classic Reprint) Ernest Cockle, 2015-07-06 Excerpt from Leading Cases and Statutes on the Law of Evidence This book was originally intended for the use of students only I now find however that it has been extensively used by practitioners especially at Quarter Sessions as presenting in a handy form the substance of cases constantly referred to In order to make it more worthy of the attention thus bestowed on it I have now considerably supplemented it The chief additional feature of this edition is the collection of Statutes on Evidence forming Part II of the book I have taken much trouble to select all the important statutory provisions relating to evidence including those contained in statutes dealing with other matters but having special provisions as to evidence I believe this collection to be the fullest in existence on the subject I have not attempted to make it absolutely complete as it would be useless and wasteful of space to insert some of the provisions on special matters But I believe that every statutory provision on the subject likely to be required will be found in the collection except those relating to procedure with which I do not profess to deal Some of the provisions given are of small importance in themselves but they serve to illustrate points or rules stated in other portions of the book Another new feature is the Index which did not appear in the first edition the rather elaborate Table of Contents being thought sufficient It is hoped that this will add to the usefulness of the book The Table of Contents has also been much enlarged and is intended to afford a complete and systematic outline of the whole subject A few additional cases have been given the notes have been considerably amplified and the whole subject to some extent re arranged The arrangement has been a matter of much difficulty No two books on Evidence agree even approximately in arrangement That adopted in the

present book is the outcome of a careful consideration of all the chief works on the subject I am much indebted to others for suggestions especially to the learned writer of a review in the Law Quarterly Review of April 1908 whose views on the Law of Evidence must always be entitled to the highest respect I feel the weight of his criticisms generally and believe that the following pages show that I have profited by them About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
