social work speech and physical therapy developmental psychology behavior therapy and public health      *Early Childhood Intervention* Hanan Sukkar, Carl Dunst, Jane Kirkby, 2016-12-01 Early childhood is considered a critical but often vulnerable period in a child's development where early identification and intervention can be crucial for improving children's developmental outcomes. Systems and family centred perspectives are vital to support families and build their capacities to lead normalized lives with improved family quality of life. This book explores the family centred practices and systems factors which influence families' experiences raising children with complex needs. It also considers the ways in which professionals can work with families to build and support parent and child competence. Conceptual and practical work from Australia, Canada, Europe and the United States present descriptions of and implications for different family system frameworks and early childhood programs. Contributors in this edited volume bring together contemporary information that bridges the research to practice gap in supporting families of young children with disabilities or delays. Chapters include: Early Intervention for Young Children with Developmental Delays; Contributions of the Developmental Systems Approach; Family Composition and Family Needs in Australia; What Makes a Family Working with Families in Early Childhood Intervention; Family Centred Practices in an Individualised Funding Landscape; Family Systems and Family Centred Intervention Practices in Portugal and Spain; Iberian Reflections on Early Childhood Intervention. This book will attract the attention of scholars of Parenting and Families, Child Development and Childcare.

Promoting Positive Behavioral Outcomes for Infants and Toddlers Heather Agazzi, Emily J. Shaffer-Hudkins, Kathleen Hague Armstrong, Holland Hayford, 2020-10-14 This book provides a guide for planning, providing and documenting effective early interventions for infants and toddlers and their families. It discusses best practices for engaging the family team, problem solving, developing individual treatment plans, incorporating evidence-based interventions, tracking progress and identifying and solving challenges and obstacles presenting during treatment. The book focuses on the approximately 13% of U.S. children under age 3 who have developmental delays/disabilities, many of which may impair their ability to talk, move, learn, socialize and become independent. When delivered effectively, early intervention can improve daily function and outcomes for these children, many of whom present with multiple and unique challenges. Each chapter in this book is written to guide practitioners, clinicians, therapists and related professionals in their daily work with young children and their families. It addresses everyday challenges including creating routines for parents of infants and toddlers, teaching parents how to play with their children and respond to problem behaviors and managing caregiver stress. *Promoting Positive Behavioral Outcomes for Infants and Toddlers* is an essential resource for scientist-practitioners, professionals and clinicians as well as researchers and graduate students in child and school psychology, educational psychology, behavioral therapy, infancy and early childhood development, speech pathology and occupational therapy.
