Title index Nicholas Triffin,1994 **The Structure of Property Law** Ben McFarlane,2008-07-11 In its essence land law has to provide answers to two very difficult questions who is entitled to use land and how they are entitled to use it Land law is therefore inherently difficult but not impossible so It consists of an ordered and logical system which aims to take the sting out of fierce disputes This new introductory textbook reveals the system and also shows how it is possible to understand and criticize land law The book is written in a student friendly style and in both its pages and companion web site makes use of helpful visual aids The book places land law firmly within the wider context of property law The introduction discusses a basic tension which runs throughout property law and it shows how that tension is heightened where land is involved The second part shows the response to this basic tension setting out a basic structure which applies throughout property law while noting how the special nature of land leads to the special features of land law The third part of the book applies the basic structure to the individual topics making up land law courses using the structure to reveal the conceptual coherence

which lies behind the technical terms The book is ideal reading for undergraduate law students seeking a rock solid understanding of how land law works *Journal of the American Statistical Association* ,2008 *Heredity, health and personal beauty* John Vietch Shoemaker,1890 *Book on the Physician Himself and Things that Concern His Reputation and Success* Daniel Webster Cathell,1889 Twelve Lectures on the Structure of the Central Nervous System ...
