

Height-adjusting after Fixing

After fixing, if needs to make Height-adjusting pls follow the following indicated drawing, only needs to remove the top, and changes lower for the Bottom position. Pls choosing the suitable position at random, to match with the ear-part of Adapter. But if that Axes are too thick (over-fired) and can't lower down, that way pls remove the axes with the Bodies together, then can proceed further.

- ⑤ While for removing top-cover, should lock closely to the right.

Lock closely to the right

- ⑥ Make Bodies direct to (aim to) screw part, to turn it right-ward (5-6 times) then can finish for Fixing.

Shriver,Robert C. Trexler,1966 Ten new concepts of electronics maintenance are described and analyzed in this report These concepts differ from the conventional approach in that they advocate an equipment analysis for troubleshooting be made once by experts then transmitted to the repairman with appropriate supporting data to obviate the need for repeated analyses by maintenance personnel on the job Evidence from experimental evaluations of some of the concepts indicates the potential for marked increases in proficiency and or decreases in training time as compared to current practice Comparative evaluation of these concepts should consider system wide implications rather than any single index such as reduced training time or cost of preparation of manuals It would appear that some maintenance situations would be best served by a combination of features from several of the new approaches in other cases it is possible that one of the concepts is uniquely suited to the particular circuitry or equipment configuration
