**Anthroposophy and the Accusation of Racism** Peter Selg, 2022-05-13 No longer should the blood that runs through the ancestors be of sole account From this point onward what every single person achieves in one's soul shall count Every single human being shall be of value during their incarnation Rudolf Steiner The original subtitle of Rudolf Steiner's *Philosophy of Freedom* 1894 the basis for a modern worldview points to the lifelong project with which he was engaged laying the basic groundwork for modern contemporary human beings to be able to comprehend the world in which we live beginning with ourselves as individual utterly unique embodiments of humanity It's a spiritual worldview born of the essence of the modern scientific reckoning with knowledge But its detractors critics and outright opponents speaking from the standpoint of other worldviews and denying the validity of this one from the early 1900s to today have continued to portray it in a very different light One such critic typical of others writing in 2019 deemed it dogmatic irrational anti Enlightenment racist Those with even a passing knowledge of this

worldview and the fruits of its application to life may wonder how such a modern innovative universally inclusive and rational approach one that has led to such positive and beneficial results in the world could be so distorted and defamed What is the substance of these accusations and are they at all well founded With this book out of his comprehensive grasp of Steiner's work its history background and subsequent development together with the contextual background of twentieth century European totalitarianism and the contemporary landscape Peter Selg addresses these and other related questions head on

A Road to Sacred Creation Rudolf Steiner, 2021-08-03 Rudolf Steiner's perspectives on technology are manifold and prophetic He not only critiqued the technology of his day but foretold new forms of technology that would inevitably arise technologies that would be connected to the makers very attitudes of soul either the good or bad within them in other words their deepest motivations How we as evolving human beings approach technology and its development will be instrumental in determining how ultimately human evolution will turn out Our future as human beings and the future of technology are intimately connected Gary Lamb Illuminating compelling challenging at times staggering in its breadth A Road to Sacred Creation is above all the definitive text for gaining a hold on Rudolf Steiner's nuanced perspectives on technology Charting both an inner and outer course part pilgrimage toward greater perception and knowledge part dramatic unfolding plot line of the future of humans and machines the metaphoric road of the title is exactly where humanity finds itself today though the exact route and destination are still to be determined The map is not yet drawn but here is a beginning Taken together the relevant concepts ideas and insights of Steiner deftly brought into sequence and dialogue as the editor has done in this book reveal how the work to arrive at a more spiritually imbued technological future not only involves all domains and fields of spiritual science and anthroposophic work but has its origins in the very core of our being fundamentally entwined with our moral progress toward freedom and selfless love

### **NGO Discourses in the Debate on Genetically Modified Crops**

Ksenia Gerasimova, 2017-07-20 The development and use of genetically modified organisms GMOs has been a contentious topic for the last three decades While there have been a number of social science analyses of the issues this is the first book to assess the role of Non Governmental Organizations NGOs in the debate at such a wide geographic scale The various positions for and against GMOs particularly with regard to transgenic crops articulated by NGOs in the debate are dissected classified and juxtaposed to corresponding campaigns These are discussed in the context of key conceptual paradigms including nature fundamentalism and the organic movement post colonialism food sovereignty anti globalisation sustainability and feminism The book also analyses how NGOs interpret the debate and the persuasive communication tactics they use This provides greater understanding of the complexity of negotiations in the debate and explains its specific features such as its global scope and difficulty in finding compromises The author assesses the long term interests of various participants and changes in perceptions of science and in public communication as a result Examples of major NGOs such as Greenpeace Oxfam and WWF are included but the author also provides new research into the role of NGOs in Russia

**Deliverance of the Spellbound God** Marie-Laure Valandro,2011-11 Marie Laure Valandro the author of Camino Walk and Letters from Florence and a long time student of Anthroposophy takes readers on yet another journey this one more inward Marie Laure begins this journey with a Vipassana Buddhist retreat in southern Quebec with the well known meditation teacher Goenka The meditation retreat becomes the touchstone of the author's travels while Rudolf Steiner's Anthroposophy serves as the ground The author describes the spiritual dimensions of her travels in India and Europe while always returning to her deep understanding of Steiner's spiritual science As always in Marie Laure's writing in Deliverance of the Spellbound God we discover the sublime in the ordinary and wisdom in even the most foolish of situations In her descriptions of people and places as well as in the details of her travels she shows how we can look outward to know ourselves and look inward to know the world Deliverance of the Spellbound God offers gifts of wisdom from an extraordinary life lived **Foodwise**

Wendy E. Cook,2012-12-17 Wendy Cook's fascination with nutrition began during her war time childhood In the midst of deprivation and food rationing the rich abundance of her mother's organic garden made a profound impression In her twenties married to Peter Cook she discovered the artistic and magical effects that food could have in creating a convivial atmosphere During this period she cooked for many well known names including John Lennon Paul McCartney Dudley Moore Peter Ustinov and Alan Bennett But it was only later through her daughter falling ill that she came to study and understand deeper aspects of nutrition and in particular the effects of different foods on human health and consciousness In Foodwise Wendy Cook presents a remarkable cornucopia of challenging ideas advice and commentary informed by the seminal work of the scientist Rudolf Steiner She begins the volume with biographical glimpses relating to her experience of food and how it has influenced her life She then presents an extraordinary perspective on the journey of human evolution relating it to changes in consciousness and the consumption of different foods In the following section she considers the importance of agricultural methods the nature of the human being the significance of grasses and grains the mystery of human digestion and the question of vegetarianism In the next section she analyses the building blocks of nutrition looking in some detail at the nutritional or otherwise qualities of many foodstuffs including carbohydrates minerals fats and oils milk and dairy products herbs and spices salt and sweeteners stimulants legumes the nightshade family bread water and dietary supplements She ends with practical tips on cooking planning menus children's food sharing meals and some mouth watering recipes Foodwise presents a treasure of wisdom and experience for anybody with a concern for the content of the food they eat or a desire to discover more about the physical soul and spiritual aspects of nutrition *Subject Guide to Books in Print*
