From Modernism To Postmodernism An Anthology Expanded:

From Modernism to Postmodernism Lawrence E. Cahoon, 2003-02-04 This revised and expanded second edition of Cahoon's classic anthology provides an unparalleled collection of the essential readings in modernism and postmodernism. Indispensable and multidisciplinary resource in philosophy, literature, cultural studies, social theory, and religious studies.

Contemporary Moral and Social Issues, 2014-04-15 *Contemporary Moral and Social Issues* is a uniquely entertaining introduction that brings ethical thought to life. It makes innovative use of engaging, topically oriented original short fiction together with classic and influential readings and editorial discussion as a means of helping students think philosophically about ethical theory and practical ethical problems. Introduces students to ethical theory and a range of practical moral issues through a combination of key primary texts, clear editorial commentary, and engaging original fiction. Includes discussion of topics such as world poverty, abortion, animals, the environment, and genetic engineering. Contains Facts and Factual Issues for each topic to give students an up-to-date understanding of related factual issues. Uses immersive original short works of fiction as a means to engage students to think philosophically about serious ethical issues. Sample Course Framework available.

Late Europeans and Melancholy Fiction at the Turn of the Millennium Ian Ellison, 2022-04-01 This book is the first comparative study of novels by Patrick Modiano, W. G. Sebald, and Antonio Muñoz Molina. Drawing on many literary figures, movements, and traditions from the Spanish Golden Age to German Romanticism to French philosophy via Jewish modernist literature, Ian Ellison offers a fresh perspective on European fiction published around the turn of the millennium. Reflecting on what makes European fiction European, this book examines how certain novels understand themselves to be culturally and historically late, expressing a melancholy awareness of how the past and present are irreconcilable. Within this framework, however, it considers how backwards-facing, tradition-oriented self-consciousness, burdened by a sense of exhaustion in European culture and the violence of its past, may yet suggest the potential for re-enchantment in the face of obsolescence.

From Flanders Fields to the Moviegoer Michael A. Milton, 2019-10-24 How do educators, clergy, attorneys, and the concerned public come to terms with meaningful, workable ethics in an age that eschews any attempt to define truth and error? Michael A. Milton has addressed that question in the new monograph *From Flanders Field to the Moviegoer: Philosophical Foundations for a Transcendent Ethical Framework*. Milton draws on English literature, sociology, history, public policy, and theology to mark milestones in the cultural journey from the philosophical crisis after World War I, the end of modernity, and the introduction of the theater of the absurd in post-modernity. Rather than merely a survey, this monograph proposes a way forward in teaching metaphysical ethics. Originally given as a paper before American and British defense leaders in Washington, DC, Milton's original paper is now expanded for use in undergraduate, graduate, and postgraduate classrooms, as well as libraries and professional military education.
