M. Johnston, 2015-07-06 Excerpt from The French Revolution a Short History The object of this book is similar to that with which a few years ago I wrote a short biography of Napoleon The main outlines of the Revolution the proportion and relation of things tend to become obscured under the accumulation of historical detail that is now proceeding This is an attempt therefore to disentangle from the mass of details the shape the movement the significance of this great historical cataclysm To keep the outline clear I have deliberately avoided mentioning the names of many subordinate actors thinking that if nothing essential was connected with them the mention of their names would only tend to confuse matters Similarly with incidents I have omitted a few such as the troubles at Avignon and changed the emphasis on others judging freely their importance and not following the footsteps of my predecessors as in the case of the capture of the Bastille the importance of which was vastly exaggerated by early writers on the subject About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections

of the reading room who knows the collection better than any one else This great collection has been used especially for Chapter I Of the present volume on the Elections which is based entirely upon it but in subsequent chapters the contemporary journals have formed the groundwork of the story though corrected and amplified by these pamphlets and by modern monographs The history of the French Revolution has gone through four distinct stages in France which must be noticed successively though the boundaries of the third and fourth stages cannot be distinctly defined The first stage is that of contemporary histories Though the various journals and pamphlets give the narrative of events at first hand they were quickly followed up and made use of in regular histories Of these the earliest in point of date is that of Rabant de Saint Etienne the Protestant pastor and member of the Constituent Assembly and of the Convention who wrote his Histoire de la Revolution francaise in 1792 in the happy conviction that the Revolution was all over before it had reached the critical period in which he himself died on the guillotine Of the numerous histories published under the Directory the best known are those of the Deux Amis and of Lacretelle of which Carlyle made copious use But these writers lived too close to the time of which they wrote to be able to clear their minds of prejudices or to have knowledge of the documents which could alone unravel hidden intrigues About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works      Narrative of the French Revolution of 1848 (Classic Reprint) Walter Keating Kelly,2017-12-19 Excerpt from Narrative of the French Revolution of 1848 And never was so much work done and well done in so brief a space of time The Three Days Of July glorious as they were to the great hearted victors resulted in nothing more than a transposition of the established order of things they shifted the parts in the political drama from one set of actors to another but the play remained the same The Three Days of February were days both of destruction and creation and produced a fundamental change in the whole political and social system of the country Between the ancient France Of Louis Philippe and the new born Republic there lies the interval of a deluge About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works      The History of the French Revolution, Vol. 3 of 5 (Classic Reprint) Louis Adolphe Thiers,2015-07-05 Excerpt from The History of the

French Revolution Vol 3 of 5 An order of arrest was issued by the commune against the two ministers Lebrun and Clavieres dismissed after the 2nd of June Lebrun found means to evade it The same measure was taken against Roland who had been removed from office on the 21st of January and begged in vain to be permitted to render his accounts He escaped the search made for him by the commune and concealed himself at Rouen Madame Roland against whom also proceedings were instituted had no other anxiety than that of favouring the escape of her husband then committing her daughter to the care of a trusty friend she surrendered with noble indifference to the committee of her section and was thrown into prison with a multitude of other victims of the 31st of May Great was the joy at the Jacobins Its members congratulated themselves on the energy of the people on their late admirable conduct and on the removal of all those obstacles which the right side had not ceased to oppose to the progress of the Revolution According to the custom after all great events they agreed upon the manner in which the last insurrection should be represented The people said Robespierre have confounded all their calumniators by their conduct Eighty thousand men have been under arms for nearly a week yet no property has been violated not a drop of blood has been spilled and they have thus proved whether it was their aim as it has been alleged to profit by the disorder for the commission of murder and plunder Their insurrection was spontaneous because it was the effect of the general conviction and the Mountain itself weak and astonished at this movement has proved that it did not concur to produce it Thus this insurrection has been wholly moral and wholly popular This was at once giving a favourable colour to the insurrection addressing an indirect censure to the Mountain which had shown some hesitation on the 2nd of June repelling the charge of conspiracy preferred against the leaders of the left side and agreeably flattering the popular party which had behaved so well and done every thing of itself About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
